

13 July 2010

## Consumer Price Index (CPI). Base 2006

June 2010

### Overall index

	Monthly change	Change over last December	Annual change
June	0.2	1.0	1.5

### Main results

- The **annual change** of the CPI for the month of June decreases three tenths and stands at **1.5%**.
- The **annual** change of **core** inflation is **0.4%**, two tenths higher than that registered in May.
- The **monthly change** of the overall index is **0.2%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **1.5%**, three tenths less than the previous month.

### Annual evolution of consumer prices

The annual change of the overall Consumer Price Index (CPI) in June was 1.5%, three tenths lower than that registered in May.

The groups which most contributed to this decrease were:

- **Transport**, with an annual change standing at **5.3%**, more than two-and-a-half points less than the previous month. This decrease was explained by the prices of *fuels and lubricants for personal transport equipment* decreasing this month, as compared with the increase registered in June of last year.
- **Housing**, whose annual change decreased five tenths, standing at **3.3%**. This behaviour was explained by the decrease in the price of *diesel fuel for heating*, as compared with the increase experienced in June of last year.

Despite the decrease in the annual change of the overall index, worth noting was the increase in the change of the following group:

➤ **Food and non-alcoholic beverages**, whose annual change reached **-0.7%**, seven tenths higher than that registered the previous month. The divisions that were most noteworthy due to their contribution to this change were *fresh fruit, fresh potatoes and potatoes preparations* and *fresh vegetables*.

**Contribution of the groups to the annual change of the CPI**

**DIFFERENCE IN THE ANNUAL CHANGE OF THE OVERALL CPI**

**-0.3**

The annual change of **core inflation** (overall index excluding unprocessed food and energy products) increased two tenths to **0.4%**.

**Annual evolution of the CPI Index, overall and core**

### Monthly evolution of consumer prices

In June, the monthly change of the overall CPI was **0.2%**.

Amongst the groups with the greatest positive contribution to the overall index were the following:

- **Alcoholic beverages and tobacco**, with a change of **5.0%** and a contribution of **0.140** to the overall index, fundamentally due to the increase in the price of *tobacco*.
- **Recreation and culture**, with a monthly change of **0.6%**, due to the increase in the prices of *package holidays*. The contribution to the overall index was **0.048**.
- **Food and non-alcoholic beverages**, with a monthly change of **0.2%** and a contribution of **0.038**. This increase was due to the rise in the prices of most of its components.
- **Restaurants, cafés and hotels**, with a change of **0.3%** in prices in the month of June. Its contribution to the overall index was **0.035**.

Likewise, the groups with a negative monthly contribution to the overall index were the following:

- **Clothing and footwear**, with a monthly change of **-0.6%**, which reflected the effects of the price drops prior to the beginning of the summer sales campaign. Its contribution to the overall CPI was **-0.054**.
- **Transport**, with a change of **-0.3%** and a contribution of **-0.039**. This change was largely due to the decrease in the prices of *fuels and lubricants for personal transport*.

## Monthly evolution of the CPI Overall index

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of June.

### The divisions with the greatest positive contribution to the monthly change of the CPI:

	Monthly change (%)	Contribution
<b>Food</b>		
Fresh fruit	1.4	0.017
Fresh potatoes and potatoes preparations	3.7	0.012
Fresh vegetables	0.7	0.006
<b>Other divisions</b>		
Tobacco	6.7	0.137
Package holidays	4.2	0.055
Accommodation services	2.9	0.023
Restaurants, cafés and the like	0.1	0.011

### The divisions with the greatest negative contribution to the monthly change of the CPI:

	Monthly change (%)	Contribution
<b>Food</b>		
Mineral waters, soft drinks and juices	-1.2	-0.009
Poultry meat	-1.1	-0.009
Other milk-based products	-0.3	-0.002
<b>Other divisions</b>		
Garments	-0.8	-0.051
Fuels and lubricants for personal transport equipment	-0.6	-0.042
Other fuels	-3.0	-0.016

**Results by Autonomous Community. Annual changes**

All of the Autonomous Communities experienced a decrease in their annual change in June 2010, as compared with the previous month.

The greatest decrease in annual change corresponded to Cantabria (1.5%), Castilla-La Mancha (1.7%) and Comunidad de Madrid (1.5%), whose annual change decreased four tenths. In turn, Región de Murcia was the Autonomous Community that registered the smallest decrease in its annual change, one tenth below that recorded last month.

**Annual changes of the CPI Index, by Autonomous Community and autonomous city**

### Harmonised Index of Consumer Prices (HICP)

In June, the annual change of the HICP decreased three tenths, standing at **1.5%**. This change was the same as that estimated by the HICP flash estimate, published last 29 June.

The monthly change of the HICP was **0.2%**.

#### Annual evolution of the HICP, base 2005

#### Overall Index. Spain and the European Monetary Union <sup>1</sup>

<sup>1</sup> The last figure from the European Monetary Union refers to the flash estimate

In turn, the HICP at Constant Taxes (HICP-CT) registered, in the month of **May** 2010, an annual change of **1.5%**, three tenths below that registered by the HICP for said month. The monthly change of the HICP-CT was **0.2%**.

13th July 2010
