

13 July 2016

**Consumer Price Index (CPI). Base 2011**  
June 2016

**Overall index**

	Monthly changel	Change over last December	Annual change
June	0.5	0.1	-0.8

**Main results**

- The **annual change** of the CPI for the month of June stands at **-0.8%**, two tenths higher than that registered in the previous month.
- The **annual change** of **core** inflation decreases one tenth, reaching **0.6%**.
- The **monthly change** of the overall index is 0.5%.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **-0.9%**, thus it increases two tenths as compared with May.

**Annual evolution of consumer prices**

The annual rate for the overall Consumer Price Index (CPI) in June was **-0.8%**, two tenths higher than that registered in the previous month

The groups that most contributed to this variation were:

- **Transport**, with a variation of **-4.0%**, nine tenths higher than that of the previous month, mostly due to the increase in the prices of *fuels and lubricants*, compared with the drop registered in June 2015.
- **Housing**, whose rate increased one point up to **-5.5%**. This reduction was mainly due to the increase in the prices of *electricity*, greater than that registered in 2015. It also influences, although to a lesser extent, the behaviour of gas prices, which decrease less than in June 2015.
- **Leisure and culture**, whose rate stood at **-1.6**, three tenths higher than that registered in May. This was due to the increase in the prices of *package holidays*, which was higher this month than in June 2015.

Among the groups with a negative contribution, worth noting were:

- **Food and non-alcoholic beverages**, with a variation of **1.5%**, two tenths lower than that of the previous month. This was due to the decrease in the prices of *fresh fish* and *oils*, compared to its increase one year ago, and for the increase in the prices of *fresh vegetables*, less pronounced than that registered in 2015.
- *Other goods and services*, with a variation of **1.2%**, four tenths less than that registered in the previous month. This was due to the behaviour in the prices of *Insurance*, which increased less than in the previous year.
- *Hotels, cafes and restaurants*, whose annual rate decreased two tenths, down to **0.9%**, as the rise in prices for *hotels and other accommodations* is lower than that registered a year ago.

**Contribution of the groups to the annual change of the CPI**

**DIFFERENCE IN THE ANNUAL CHANGE OF THE OVERALL CPI**  
0.2

The annual change for **core inflation** (overall index excluding unprocessed food and energy products) decreased one tenth up to **0.6%**, standing almost one and-a-half points over the overall CPI rate.

**Annual evolution of the CPI**

**Monthly evolution of consumer prices**

In June, the monthly change of the overall CPI was **0.5%**.

Among the groups with positive contribution to the overall index, worth noting were:

- **Housing**, with a variation of **2.1%**, and a contribution of **0.246**, mainly due to the increase in the prices of *electricity* and *heating gas oil*. It should be noted the drop in *gas* prices, which influences the opposite direction.
- **Transport**, whose rate of **1.0%**, is explained by the increase in the prices of fuels and lubricants. The contribution of this group to the overall CPI was **0.155**.
- **Recreation and culture**, with a variation of **1.0%** and a contribution of **0.068**, reflected the increase in the prices of *package holidays*.
- **Food and non-alcoholic beverages**, with a rate of **0.5%** and a contribution of **0.049**. Worth noting in this behavior was the increase in the prices of *fresh fruits*.

Also noteworthy in this group, although in the opposite direction, the drop in the prices for fresh vegetables.

- **Hotels, cafes and restaurants**, with a monthly change of **0.2%** and a contribution of **0.024**, due to the increase in the prices of *hotels and other accommodation*.

In turn, the groups with negative contribution to the overall index were:

- **Clothing and footwear**, whose rate was **-1.2%**, which reflects the behaviour of prices at summer sales. Its contribution to the overall index was **-0.089**.

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of June..

**Divisions with the greatest positive contribution to the monthly change of the CPI**

	Tasa mensual (%)	Repercusión
<b>Food</b>		
Fresh fruits	6.5	0.093
Crustaceans and molluscs	1.2	0.007
<b>Other divisions</b>		
Electricity	8.3	0.222
Fuels and lubricants	2.1	0.138
Packaged holidays	5.7	0.073
Other fuels	7.8	0.034
Hotels and other accomodation	1.9	0.016

**Divisions with the greatest negative contribution to the monthly change of the CPI**

	Tasa mensual (%)	Repercusión
<b>Food</b>		
Fresh vegetables	-4.1	-0.041
Milk	-0.5	-0.005
<b>Other divisions</b>		
Clothing	-1.4	-0.081
Gas	-0.9	-0.012

### Results by Autonomous Community. Annual changes

The annual rate of CPI increased in all the Autonomous Communities. The greatest increases were registered in Principado de Asturias (−0.6%) and Castilla-La Mancha (−1.1%), with three tenth increases.

In turn, Aragón (−1.0%), Comunidad Foral de Navarra (−0.7%), La Rioja (−1.0%), Illes Balears (−0.8%) and Extremadura (−0.8%) were the Autonomous Communities with the lowest increase in the annual rate, one tenth over that registered in May.

#### Annual CPI rates Autonomous Cities and Communities

## Harmonised Index of Consumer Prices (HICP)

In June, the annual change of the HICP stood at **-0.9%**, two tenths over than that registered in the previous month.

The monthly change of the HICP was **0.4%**.

<sup>1</sup> The latest data from the Monetary Union refers to the flash estimate

## Index of Consumer Prices at Constant Taxes

In June, the annual rate of CPI-CT was **-0.8%**, remaining the same as that of the overall index.

The monthly change of the CPI-CT was **0.5%**.

In turn, the annual rate of HICP-CT registered an annual change of **-0.9%**, remaining the same as that of the HICP.

The monthly change of the HICP-CT was **0.4%**.
