July 2012

**Overall index**

	Monthly change	Change over last December	Annual change
July	-0.2	0.5	2.2

**Main results**

- The **annual change** of the CPI for the month of July stands at **2.2%**, three tenths above the change registered the previous month.
- The **annual change** of **core** inflation increases one tenth, standing at **1.4%**.
- **Monthly change** of the overall index is **-0.2%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **2.2%**, four tenths higher than that registered in June.

**Annual evolution of consumer prices**

The annual change for the overall Consumer Price Index (CPI) in June was **2.2%** three tenths higher than that registered in June. This change was the same than the CPI flash estimate, published last 30 July.

The groups that most contributed positively in this rate were:

- **Medicine**, with an annual change of **6.6%**, almost ten points higher than the previous month, mainly due to the variation in the rubric of *medical and other pharmaceutical products*, as a result of changes on its specific legislation of financing.
- **Transport**, whose annual variation increased nine tenths and stood at **3.8%**, mainly due to the increase in prices of *fuels and lubricants*, and less in *air transport*, more acute this month than July 2011.

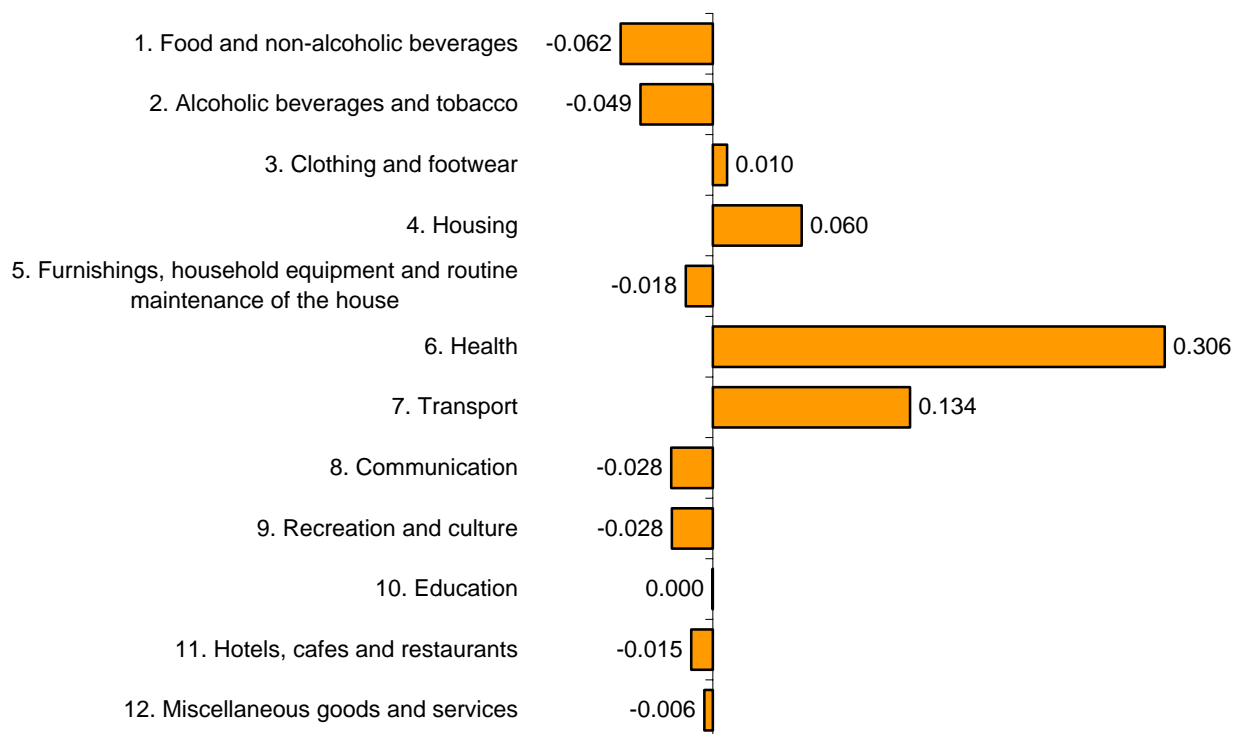

- **Housing**, with an annual change of **5.4%**, four tenths higher than the previous month, mainly due to the increase in prices of *electricity*. Besides this increase, worth noting the drop on the annual change of *gas*, whose prices increased more in 2011 than this month.

Although the increase of the annual change of the CPI, worth noting the decrease in price of the following groups:

- **Food and non-alcoholic beverages**, that presented an annual variation of **1.8%**, four tenths lower than the previous month. In this behaviour, worth noting the decrease in prices of *fresh vegetables* and *poultry meat*. Besides the decreases, highlight the increase in price of *fresh potatoes* and *potatoes preparations*, as compared with the decrease registered in July 2011.

- **Alcoholic beverages and tobacco**, with an annual change of **9.5%**, two points lower than the previous month, mainly due to the increase in prices of *tobacco* was lower this month than the previous year.

#### Contribution of the groups to the annual change of the CPI

The annual change for **core inflation** (overall index excluding unprocessed food and energy products) increased one tenth and stood at **1.4%**, therefore its difference from the overall index change decreased eight tenths.

**Annual evolution of the CPI  
Overall and core index**

**Monthly evolution of consumer prices**

In July, the monthly change of the overall CPI was **-0.2%**.

The groups with the greatest negative monthly contribution to the overall index were the following:

- **Clothing and footwear**, whose monthly change of **-12.2%**, covering the effects of the drops in prices prior to the summer sales campaign. Its contribution to the overall CPI was **-0.980**.
- **Furnishings, household equipment and routine maintenance of the house**, that presented a monthly change of **-1.1%** and a contribution of **-0.073**, mainly due to the drop in prices of *household textiles articles and furniture*.
- **Communications**, with an annual change of **-1.8%** and a contribution of **-0.068** on the overall index. This behaviour was largely due to the drop in prices of *telephone services*.

In turn, the groups with the greatest positive contribution to the overall index were the following:

- **Health**, that presented an annual change of **9.7%** and a contribution of **0.303**, mainly due to the increase in prices of *medical and other pharmaceutical products*, as consequence of changes on copayment rules
- **Transport**, whose monthly change of **1.5%** covering the increases in prices of *fuels and lubricants*. Its contribution to the overall CPI was **0.225**.
- **Housing**, with a monthly change of **1.5%** and a contribution of **0.187** on the overall CPI, caused by the increase in prices of *electricity and gas*, to a lesser extent, of *heating fuels*.
- **Recreation and culture**, whose monthly change of **2.0%**, was mainly explained by the increase in prices of *package holidays*, usual for this time of year. The contribution of this group on the general index was **0.146**.
