

11 October 2013

Consumer Price Index (CPI). Base 2011
September 2013

Overall index

	Monthly change	Change over last June	Annual change
September	-0.2	-0.4	0.3

Main results

- The **annual change** of the CPI for the month of September stands at **0.3%**, more than one point below the one registered the previous month.
- The **annual** change of **core** inflation decreases eight tenths and stands at **0.8%**.
- The **monthly change** of the overall index is **-0.2%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **0.5%**, thus it decreases more than one point, as compared with August.

Annual evolution of consumer prices

The annual change for the overall Consumer Price Index (CPI) in September was **0.3%**, more than one point below that registered in the previous month and the lowest since November 2009.

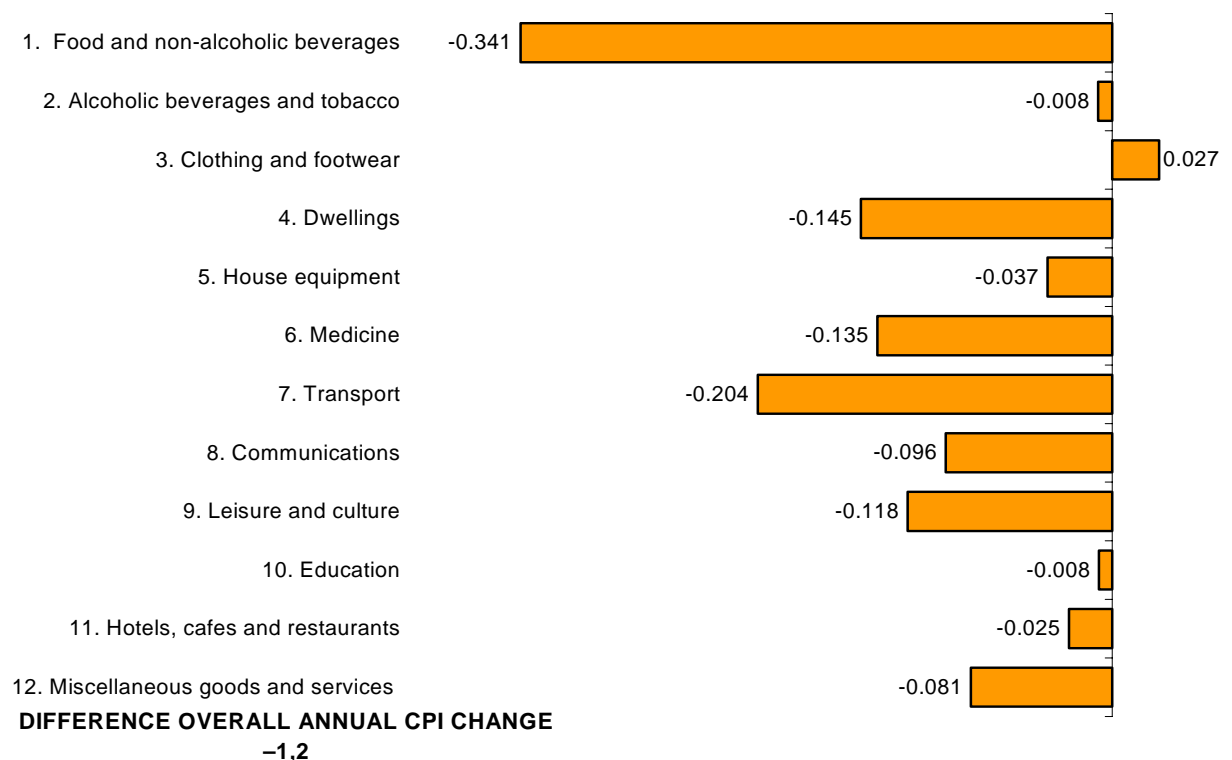

This decrease in the annual rate was largely due to the comparative effect of prices this month with September 2012, which saw an increase in Value Added Tax (VAT).

The groups that most contributed in this variation were:

- **Food and alcoholic beverages**, whose variation decreased nearly two points, standing at **2.5%**. Worth noting in this behaviour are the decreases in the prices of *fresh fruit*, higher than that registered the previous year.
- **Transport**, with an annual change of **-1.6%**, more than one point below the one registered during the previous month. Worth noting, the increase in the prices of *motor vehicles* and *fuels and lubricants*, lower than that registered in 2012.

- **Dwellings**, whose rate decreased more than one point, reaching **-1.4%**, due to the stability in the prices of *electricity, gas and water supply*, as compared with the increases registered in September 2012.
- **Medicine** decreases its annual variation four points, standing at **0.4%**, due to the stability in the prices of *medical and other pharmaceutical products*, that registered an increase during the previous year.
- **Leisure and culture**, whose rate stood at **0.1%**, nearly two points below that registered in August. Worth noting in this evolution the stability in the prices of *cultural services*, as compared with the increase registered in 2012.
- **Communications** whose variation decreased two points and a half, reaching **-5.9%**, due to the increase in the prices of *telephone services* in September of the previous year.
- **Other goods and services** decreases its annual change nearly one point, standing at **1.3%**. Worth noting in this behaviour the stability in the prices of *articles and services for personal care and other services*, as compared with the increases registered in 2012.

Influence of the groups on the annual CPI change

The annual change for **core inflation** (overall index excluding unprocessed food and energy products) decreased eight tenths and stood at **0.8%**, standing five tenths over the overall CPI change.

Annual evolution of the CPI Overall and core Index

Monthly evolution of consumer prices

In September, the monthly change of the overall CPI was **-0.2%**.

Among the groups with a negative contribution to the overall index, it is worth highlighting:

- **Food and non-alcoholic beverages**, with a monthly variation of **-1.3%**, and a contribution of **-0.251**. Worth noting in this behaviour are the decreases in the prices of *fresh fruit*, and, to a lesser extent, *fresh potatoes and potatoes preparations*.

- **Leisure and culture**, whose variation of **-2.6%**, with a contribution of **-0.199**, was mainly explained by the decrease in the prices of *package holidays*, usual for this time of year.

- **Hotels and other accommodations**, with a monthly variation of **-1.1%**, reflecting the decrease in the prices of *hotels and other accommodations*. The contribution of this group to the general index was **-0.129**.

In turn, among the groups with a positive contribution to the general index, the most relevant were:

- **Clothing and footwear**, with a monthly rate of **4.6%**, reflected the behaviour of prices after the end of the sales period and the beginning of the winter season. Its contribution to the overall CPI was **0.310**.

- **Transport**, with a monthly change of **0.3%** and a contribution of **0.046** due to the increase in the prices of *fuels and lubricants*.

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of August.

Divisions with the greatest positive contribution to the monthly change of the CPI

	Monthly Change (%)	Contribution
Food		
Meats	0.5	0,021
Other divisions		
Clothing	4.9	0,244
Footwear	3.4	0,053
Fuels and lubricants	0.6	0,046
Other fuels	2.6	0,014

Divisions with the greatest negative contribution to the monthly change of the CPI

	Monthly change (%)	Contribution
Food		
Fresh fruits	-14.9	-0,266
Fresh potatoes and potatoes preparations	-7.6	-0,027
Other divisions		
Package holidays	-11.8	-0,198
Hotels and other accommodations	-13.1	-0,130

Results by Autonomous Communities. Annual changes

The annual rate of CPI decreased in every Autonomous Community. The greatest decreases were registered in Región de Murcia (0.6%), Extremadura (0.1%) and La Rioja (0.2%), with decreases of 1.4, 1.3 and 1.3 points, respectively.

In turn, Canarias is the only Autonomous Community that registered a negative annual rate (-0.4%), seven tenths below that registered in August.

**Annual rates of the CPI
Autonomous Cities and Communities**

Harmonised Index of Consumer Prices (HICP)

In September, the annual change of the HICP stood at **0.5%**, more than one point below than that registered in the previous month.

The monthly change of the HICP was **0.8%**.

Annual evolution of the HICP, base 2005
Overall index for Spain and the Monetary Union 1

¹ The latest data from the Monetary Union refers to the flash estimate

Index of Consumer Prices at Constant Taxes

In September, the annual rate of HICP-CT was **0.3%**, the same registered by the HICP in the said month, after a year standing 2 points below.

The monthly change of the CPI-CT was **-0.2%**.

In turn, the annual rate of HICP-CT registered an annual change of **0.4%**, one tenth below that of HCPI.

The monthly change of the HICP-CT was **0.8%**.
