Retail Trade Indices (RTI). Base 2010 October 2015. Provisional data

The monthly change of the Retail Trade Index at constant prices stands at 0.4% after adjusting for seasonal and calendar effects¹

The annual rate of the General Retail Trade Index at constant prices stands at 5.8% in the series adjusted for seasonal and calendar effects and at 4.8% in the original series

Monthly evolution of sales in Retail Trade

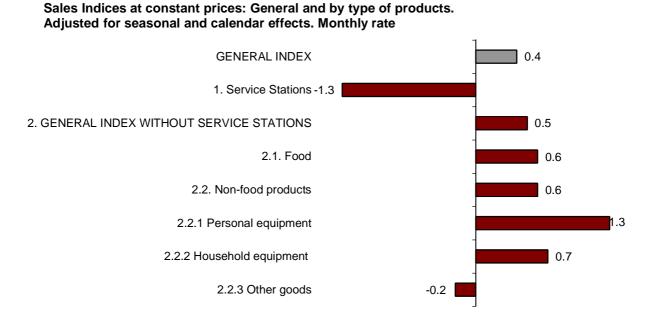

The monthly evolution of the General Retail Trade Index at constant prices between the months of October and September stood at 0.4% after adjusting for seasonal and calendar effects. This rate was four tenths lower than that registered in the previous month.

¹ In the summer months, the seasonal adjustment may be influenced both upwardly and downwardly, because of changes in the holiday pattern with respect to its previous standards.

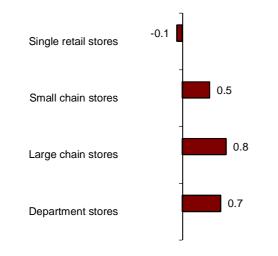

The general index, not including service stations, registered a monthly rate of 0.5%. By products, *Food* and *Non-food products* increased by 0.6%. By type of product, *Personal equipment* registered the greatest increase (1.3%).

All distribution classes registered positive rates as compared with the previous month, except for *Companies with a Single Outlet* that decreased by 0.1%.
