

24 November 2017

**Business Turnover Index (BTI). Base 2010**  
September 2017. *Provisional data*

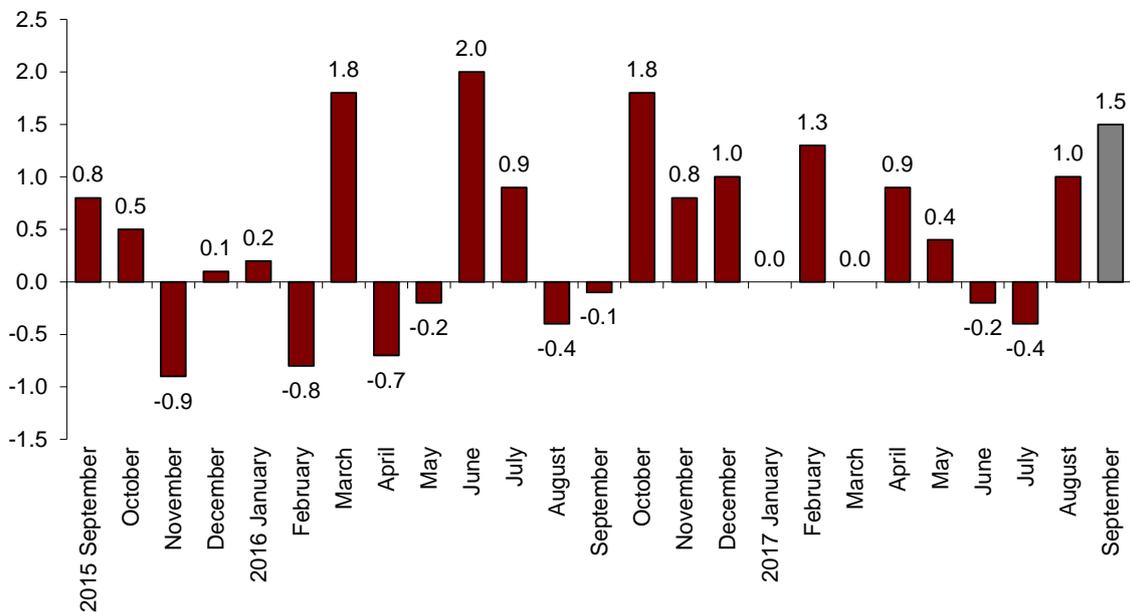

**In September, Business Turnover<sup>1</sup> registers a 1.5% monthly variation, after adjusting for seasonal and calendar effects**

**The annual rate of the BTI stands at 8.5% in the series adjusted for seasonal and calendar effects and at 5.8% in the original series**

**Monthly evolution of the BTI**

The monthly variation of the Overall Business Turnover Index (BTI) between the months of September and August 2017, after adjusting for seasonal and calendar effects, was 1.5%. This rate was five tenths higher than that of the previous month.

**Business Turnover General Index**  
Adjusted for seasonal and calendar effects. Monthly rate

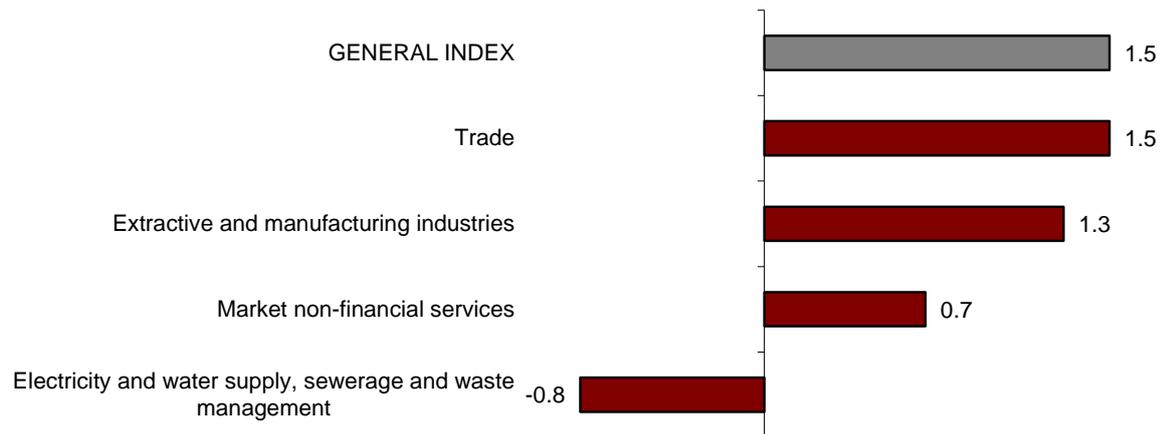

Three of the four sectors analysed presented positive monthly rates. Among which, Trade registered the greatest increase (1.5%).

<sup>1</sup> As reflected in the methodology of this value index, the information is presented in current terms (nominal terms), this is, without adjusting the effects in the price variation of it.

In turn, Electricity and water supply, sewerage and waste management registered the only decrease (-0.8%).

**Business turnover indices: General and by sectors  
Adjusted for seasonal and calendar effects. Monthly rate**

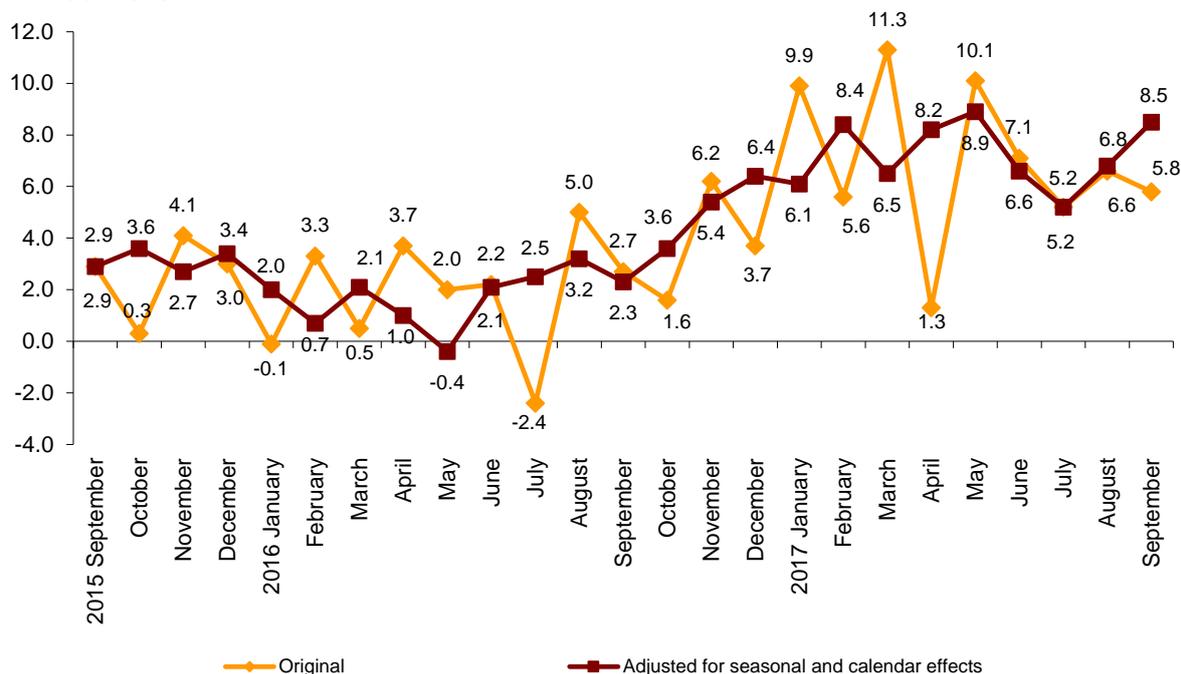

## Annual Evolution of the BTI

The Overall Business Turnover Index, adjusted for seasonal and calendar effects, registered a 8.5% variation in September, as compared to the same month of the previous year. This rate was 1.7 points higher than that registered in August.

The BTI original series experienced a annual variation of 5.8%. This rate was eight tenths lower than that registered in August.

### Business Turnover General Index Annual rate

The indices, adjusted for seasonal and calendar affects, showed positive annual variation rates in all the sectors analysed.

### Annual rates of the Business Turnover Indices: General and by sectors

	Original index	Adjusted for seasonal and calendar effects
	Annual rate (%)	Annual rate (%)
<b>GENERAL INDEX</b>	<b>5.8</b>	<b>8.5</b>
Extractive and manufacturing industries	6.8	10.8
Electricity and water supply, sewerage and waste management	1.6	4.3
Trade	6.0	7.9
Market non-financial services	5.2	6.1

## Methodological note

The Business Turnover Index (BTI) offers a combined and weighted measurement of the Turnover of the following economic sectors: *Extractive and manufacturing industries, Electricity and water supply, sewerage and waste management, Trade and Market non-financial services.*

The BTI is a value index that measures turnover evolution of the sectors it is formed by, therefore the information presented is always in current terms of each period. Activities included in the BTI represent 50.0% of GDP at market prices. This percentage increases to 66.5% if Public Administrations and net Taxes on products are excluded.

In order to comply with the European Statistics Code of Practice, this operation has been designed in such a way that the compilation of data has not involved an increased burden for the respondent. On the one hand by reusing the information resulting from another three statistical operations carried out by INE: Industrial Turnover Indices, Services Sector Activity Indicators and Retail Trade Indices. On the other hand, by using the existing information in administrative registers: Sales recorded by Large Companies in the auto-assessment of VAT in the sector not covered by the aforementioned surveys.

This new indicator complements the information offered by INE each month, about the evolution of the different sectors separately. This offers the final user a short-term indicator that will in the first place allow carrying out monthly monitoring of the business activity of a very important part of the economy, and in the second place, carrying out comparative analyses between the different sectors, as well as analysing the interrelation that may occur among them.

The Business Turnover Index is calculated by means of a fixed base Laspeyres index, in which the base year has been established so as to find the consistency with the rest of short-term indicators, in the year 2010

Elementary indices are indices published by INE in the aforementioned short-term statistics or calculated from the information provided by the Spanish Tax Agency for the sector *Electricity and water supply, sewerage and waste management.*

The weightings of each elementary aggregate represent the relationship between the invoicing value or turnover of the activities by which it is composed and the total invoicing of the activities that make up the population scope of this index. These weightings have been obtained from the data resulting from the following structural surveys: Annual Industrial Companies Survey, Annual trade Survey and Annual Services Survey, regarding year 2010.

<b>BTI Weightings, base 2010.</b>	
Extractive and manufacturing industries	28.38
Electricity and water supply, sewerage and waste management	4.67
Trade	41.79
Market non-financial services	25.16
	<b>100.00</b>

## Business Turnover Indices. Base 2010 September 2017

Provisional data

### 1. Business Turnover Indices: General and by sectors Adjusted for seasonal and calendar effects

	Index	Rate (%)		
		Monthly	Annual	Year-to-date average
<b>GENERAL INDEX</b>	<b>111.3</b>	<b>1.5</b>	<b>8.5</b>	<b>7.2</b>
Extractive and manufacturing industries	112.8	1.3	10.8	8.0
Electricity and water supply, sewerage and waste management	108.2	-0.8	4.3	9.4
Trade	110.2	1.5	7.9	7.0
Market non-financial services	110.5	0.7	6.1	6.3

### 2. Business Turnover Indices: General and by sectors Adjusted for calendar effects

	Index	Rate (%)	
		Annual	Year-to-date average
<b>GENERAL INDEX</b>	<b>112.3</b>	<b>8.5</b>	<b>7.2</b>
Extractive and manufacturing industries	116.2	10.9	8.0
Electricity and water supply, sewerage and waste management	108.1	4.0	9.5
Trade	108.3	8.1	6.9
Market non-financial services	114.5	6.2	6.3

### 3. Business Turnover Indices: General and by sectors Original series

	Index	Rate (%)		Effect Annual
		Annual	Year-to-date average	
<b>GENERAL INDEX</b>	<b>110.9</b>	<b>5.8</b>	<b>7.0</b>	
Extractive and manufacturing industries	114.0	6.8	7.7	1.950
Electricity and water supply, sewerage and waste management	106.8	1.6	9.6	0.076
Trade	107.3	6.0	6.7	2.432
Market non-financial services	114.0	5.2	6.1	1.344
