Website: _____

Nature, characteristics and purpose

These statistics are within the framework of the General plan for statistics on science and technology promoted by the Statistics Office of the European Union (Eurostat). They have the main objective of ascertaining the resources that universities spend on R&D, for the purpose of estimating the national effort in research.

They are conducted following recommendations of the OECD (Frascati Manual).

Statistical Legislation of compulsory compliance

Statistical Secrecy

The personal information obtained by the statistical services, both directly from the informants and from administrative sources, shall be subject to protection, and covered by **statistical secrecy** (article 13.1 of the Law on Public Statistical Services, of 9 May 1989, (LFEP)). All statistical staff will be obliged to maintain statistical secrecy (article 17.1 of the LFEP).

Obligation to provide data

Laws 4/1990 and 13/1996 establish the **obligation to provide the data** that is requested for the compilation of these Statistics.

The statistical services may request data from all individuals and companies, regardless of whether they are Spanish or foreign, resident in Spain (Article 10.1 of the LFEP).

All individuals and legal entities that provide data, regardless of whether their collaboration is compulsory or voluntary, **must respond in a true, exact and comprehensive manner within the stipulated deadline** to the questions outlined in due form by the statistical services (art. 10.2 of the LFEP).

In order to monitor compliance with these regulation, the LFEP (art. 48) grants the INE sanctioning capacity.

Failure to comply with the obligations envisaged in this Law, as related to statistics for state purposes, **shall be sanctioned** in accordance with the terms established in the regulations contained in this Heading (art. 48.1 of the LFEP).

Very serious infringements shall be sanctioned with fines ranging from **3,005.07 to 30,050.61 euros**€. Serious infringements shall be sanctioned with fines ranging from **300.52 to 3,005.06 euros**€. Minor infringements shall be sanctioned with fines ranging from **60.10 to 300.51 euros**€ (art. 51.1, 51.2 and 51.3 of the LFEP).

General considerations

For the purposes of these statistics, **the following are regarded as R&D activities:** "the group of creative activities undertaken systematically, in order to increase the flow of scientific and technical knowledge and use them to introduce new applications. This activity comprises basic research, applied research and experimental development. The latter leads to new devices, products, materials, processes, services or systems".

The following are not included as R&D activities: education, scientific and technical information, collection of data of a general nature, routine trials, everyday standardisation work or other technological activities relating to production or use of known products or processes. Mineral exploration is not included either, when it is aimed at discovering exploitable reserves and not essentially an increase in basic geological knowledge.

The criterion distinguishing R&D from other activities is the presence or lack of a notable degree of creativity or innovation.

General instructions

Information unit: The information that is requested in this questionnaire refers to the university whose identification data appears on the front cover. The data requested refers to all of the schools, institutes, etc., of the university in Spain, which shall be included in a single questionnaire.

Reference period: The data must refer to the target year of the statistics, otherwise to the 2008-2009 academic year.

Form of recording the data: Write down the data clearly. Please do not write in the shaded areas. The financial data is requested in **euros with no decimals**.

Consignment term: This questionnaire, duly completed with the required information, must be returned within a term not exceeding **15 days** from time of receipt.

1. General data for the university

1.1 Please list the research centres and university institutes (their own, attached, mixed or interuniversity) whose research data is in this questionnaire

Please enter the name and Tax Identification Number (NIF)

1.3 Budget of the university

	Amount (euros without decimals)
Budget paid in 2009	

1.4 General university expenditure in 2009

	Amount (euros without decimals)
Budget paid in 2009	
1. Expenditure on teaching staff	1
2. Expenditure on non-teaching staff	2
3. Expenditure on goods and services	3
4. Investment in equipment and instruments	4
5. Investment in land and buildings	5
6. Other expenses	6
TOTAL (1+2+3+4+5+6)	

2. Staff employed in internal R&D activities in 2009

2.1 Staff employed in internal R&D, according to occupation

The full-time equivalent (FTE) is the sum of the staff that works full-time and the fractions of time that the part-time staff works on R&D activities. (See instruction sheet attached).

Occupation	Total	Women	Total on FTE * (1 decimal)	Women on FTE* (1 decimal)
1. Researchers (including interns in research)			.	.
2. Technicians			.	.
3. Assistants			.	.
TOTAL STAFF (1+2+3)			.	.
Out of the researchers from point 1, please indicate the interns in research			.	.

2.2 Staff employed in internal R&D, according to qualification

Qualification	Staff in R&D			Researchers (including interns)		
	Total	Women	Total on FTE * (1 decimal)	Total	Women	Total on FTE * (1 decimal)
1. University doctorate-holders			.			.
2. University graduates, architects, engineers and the like			.			.
3. Diploma students, technical architects and engineers and the like			.			.
4. Advanced training cycles. (Specific Vocational Training)			.			.
5. Intermediate training cycles, Post-Secondary qualifications and the like			.			.
6. Other studies			.			.
TOTAL (1+2+3+4+5+6)			.			.

2.3. Distribution of staff in internal R&D, by Autonomous Cities and Communities in which the university carries out R&D activities in 2011

Autonomous Cities and Communities	Staff in R&D				Researchers (including interns)			
	Total	Women	Total on FTE * (1 decimal)	Women on FTE*(1 decimal)	Total	Women	Total on FTE * (1 decimal)	Women on FTE* (1 decimal)

	2. Lecturers, university school professors and visiting lecturers				
	3. Doctoral assistants and hired doctorate-holders				
	4. University school degree-holders, associates, assistants, collaborators, workshops supervisors, etc.				
	5. Other				
TOTAL (1+2+3+4+5+6)					

3. Expenditure on R&D activities in 2009

3.1 Expenditure on internal R&D activities in 2009

Expenditure on remunerations shall be those corresponding to the total paid to the researchers on FTE and the total technicians and assistants on FTE specified in 2.1. For the rest of the parts, expenditure shall be calculated as a percentage of the part that corresponds to R&D.

	Amount (euros without decimals)
- Remunerations of researchers on FTE (including the remuneration of interns)	1
- Remunerations of technicians and assistants	2
- Other current expenses (without VAT or amortizations)	3
A. Total current expenditure on R&D (1+2+3)	A
- Equipment and instruments (without VAT)	4
- Land and buildings (without VAT)	5
- Acquisition of specific software for R&D (including licences) (without VAT)	6

B. Total capital expenses on R&D (4+5+6)	B	
C. Total internal expenditure on R&D	C	

3.2 Financing of internal R&D expenditure in 2009

Breakdown of the total internal expenditure on R&D according to the original source of the funds received for R&D. A distinction should be made between **general university funds** (that is, the part earmarked by the university for R&D of the general subsidy received from the General Administration of the State (Ministry of Education, Social Policy and Sport) or from the Autonomous Administrations, **own funds** generated by the university (from allocation income, share and asset portfolios, as well as income stemming from the sale of services that are not R&D, such as academic fees, magazine subscriptions, sale of serum or agricultural products, etc., as well as refundable loans) and **specific funds** received for carrying out R&D. In the case of specific funds from public organisations for carrying out R&D, a distinction will be made between subsidies (including non-refundable loans) and contracts (including R&D purchases).

Source of the funds	Amount (euros without decimals)	
1. General university funds earmarked for R&D		
- General subsidy received from the General Administration of the State (Ministry of Education, etc.)	1	
- General subsidy received from the Autonomous Administration	2	
2. Own funds (including refundable loans, and the sale of goods and services other than R&D)		
3. Specific funds for carrying out R&D		
A. Public financing		
- R&D subsidies from the State Administration and Social Security	1	
- R&D contracts with the State Administration and Social Security	2	
- R&D subsidies with the Autonomous Administrations	3	
- Contracts with the Autonomous Administrations	4	
- Subsidies for R&D from the Local Administrations	5	
- Contracts for R&D from the Local Administrations	6	
B. Other domestic sources to carry out R&D		
- From public companies	1	
- From private companies and research associations	2	
- From other public universities	3	
- From other private universities	4	
- From Private Non-Profit Institutions	5	
C. Funds from abroad for carrying out R&D		
- From foreign companies	1	
- From European Union programmes	2	
- From foreign public administrations	3	
- From foreign universities	4	
- From foreign Private Non-Profit Institutions	5	
- From other international organisations	6	
Total internal expenditure on R&D (this must coincide with 3.1.C)		

3.3 Expenditure on internal R&D by Autonomous Communities in 2009

Please distribute the total internal expenditure on R&D indicated in question 3.1, according to the Autonomous Community in which the R&D activities have been carried out.

Autonomous Cities and Communities	Amount (euros without decimals)	
1. Andalucía	1	
2. Aragón	2	
3. Asturias, Principado de	3	
4. Balears, Illes	4	
5. Canarias	5	
6. Cantabria	6	
7. Castilla y León	7	
8. Castilla – La Mancha	8	
9. Cataluña	9	
10. Comunitat Valenciana	10	
11. Extremadura	11	
12. Galicia	12	
13. Madrid, Comunidad de	13	
14. Murcia, Región de	14	
15. Navarra, Comunidad Foral de	15	
16. País Vasco	16	
17. Rioja, La	17	
18. Ceuta	18	

3.4 Socio-economic objective

Please break down, as a percentage, the internal expenditure on R&D that the university has incurred in 2009, according to the socio-economic purpose or objective of the research (do not write decimals), and check that the sum of the percentages is 100%.

		%			
1. Exploration and exploitation of the land media and of the atmosphere	1				%
2. Control and care of the environment	2				%
3. Exploration and exploitation of space	3				%
4.1 Transport and telecommunications systems	4.1				%
4.2 Other infrastructures	4.2				%
5. Production, distribution and rational use of energy	5				%
6. Industrial production and technology	6				%
7. Protection and improvement of human health	7				%
8. Development of agriculture, livestock breeding, forestry and fishing	8				%
9. Education	9				%
10. Culture, leisure, religion and communication	10				%
11. Political and social systems, structures and processes	11				%
12. Unguided research	12				%
13. Defence	13				%
TOTAL		1	0	0	%

3.5 Research expenditure on the protection and improvement of human health

If in the previous question(3.4 Socio-economic objective) there is a percentage of internal expenditure on R&D in point 7. Protection and improvement of human health, please indicate the expenditure, according to the Autonomous Community in which the health research is carried out.

(The percentage from point 7. Protection and improvement of human health, multiplied by the total research expenditure of the centre, must be equal to the expenditure on research in the protection and improvement of human health)

Autonomous Community	Amount (euros without decimals)
1. Andalucía	
2. Aragón	
3. Asturias (Principado de)	
4. Balears (Illes)	
5. Canarias	
6. Cantabria	
7. Castilla y León	
8. Castilla-La Mancha	
9. Cataluña	
10. Comunita Valenciana	
11. Extremadura	
12. Galicia	
13. Madrid (Comunidad de)	
14. Murcia (Región de)	
15. Navarra (Comunidad Foral de)	
16. País Vasco	
17. Rioja (La)	
18. Ceuta	
19. Melilla	
Total expenditure on research in the protection and improvement of human health	

3.6 Research grants

Please estimate the total value of the grants received in the year 2009 by the research interns listed in section 2.1, irregardless of the type of grant and the organisation that has granted it to them. This figure must be included in the remuneration of researchers from question 3.1.

	Amount (euros without decimals)
1. Research grants	1

3.7 Type of research

Please break down, as a percentage, the CURRENT internal expenditure that the university has incurred in 2009, according to the following classification (do not write decimals, and check that the sum of the column is 100%).

2. Applied research _____

3. Experimental research _____

TOTAL _____

				%
2				%
3				%
	1	0	0	%

3.8 Activities based on biological sciences and technologies in 2009

Biotechnology is the application of science and technology to living organisms, as well as to their parts, products or models, in order to alter living or inert material, for the purpose of producing knowledge, goods and/or services.

1. Does the centre carry out any activity based on science and technology applied to living organisms or compounds obtained from them, for the purpose of obtaining valuable knowledge or products? (Including biocomputing and nanobiotechnology)

YES ☐ NO ☐ → Go to section **5**

↓

If the answer is YES, please complete the Biotechnology Use Module

2. Please indicate the resources dedicated to activities based on biological sciences and technologies

The full-time equivalent (FTE) is the sum of the staff that works full-time and the fractions of time that the part-time staff works on activities based on biological sciences and technologies.

	Staff		Staff on FTE (1 decimal)		Total expenditure (euros without decimals)
	Total	Women	Total	Women	
Resources used:	_____	_____	_____	_____	_____

3.9 Evolution of the annual resources in scientific research and technological development activities

	Total staff on FTE*	Total internal expenditure on R&D (euros without decimals)
Resources anticipated for the year 2010	_____	_____

(*) FTE: Full-time equivalent.

3.10 Purchase of external R&D services in 2009

This is caused by the acquisition of R&D services outside of the university, via contract, agreement, etc. Please do not include institutional fees to finance other public or private, or international bodies, etc. not implying a direct purchase of R&D.

	Amount (euros without decimals)
A. Purchase of R&D services in Spain (without VAT)	
- From companies	1 _____
- From Public Administration bodies	2 _____
- From universities	3 _____
- From Private Non-Profit Institutions	4 _____
B. Purchase of R&D services abroad (without taxes)	
- From foreign companies	1 _____
- From foreign public administrations	2 _____
- From foreign universities	3 _____
- From foreign Private Non-Profit Institutions	4 _____
- From other international organisations	5 _____
C. Total purchase of R&D services (A+B)	_____

4. How long did it take to complete this questionnaire?

Including the time required to collect the information necessary to do so

				Hours
--	--	--	--	-------

Observations

The National Statistics Institute would like to thank you for your cooperation
