Key position in Mediterranean crops

Spain was the second country in the European Union, by Utilised Agricultural Area (13.8% of the total), and led in a broad variety of crops, with vineyards, olive groves and citrus plantations being particularly noteworthy.

Porcine and bovine livestock were the predominant species in Spain, with 41.5% and 28.1%, respectively, of all livestock units. Within the EU, Spain was the second producer of pork, mutton and goat meat.

Leader in fish production

In 2010, Spain was first in total fish production in the EU, and in particular, in aquaculture, where it accounted for 20.1% of all aquaculture in the European Union.

Total fish production. 2010
