¹Organic Law 10/2022 of 6 September on the integral guarantee of sexual freedom eliminated from the Penal Code the crime of sexual abuse and the reference to sexual indemnity, and merged, under the denomination of sexual aggression, the previous crimes of sexual abuse and sexual aggression. However, due to the fact that during one year cases are processed both in that year and in previous years (which can be processed according to the previous legislation), cases of sexual abuse may continue to appear for a few years.

Data Review and Update

The data published today are final. All the results of this operation are available on INEbase ([adults](#) and [minors](#)).

Methodological note

Conviction Statistics: Adults and Conviction Statistics: Minors, are prepared under the Collaboration Agreement signed between the Ministry of Justice and the National Institute of Statistics (INE) on 3rd July, 2007, updated and renewed on 21st November, 2017.

The aim of both statistics is to provide detailed information on convicted adults, using confirmed sentencing, crimes committed and sentences imposed at the national, regional and provincial levels broken down by sex, age and nationality; as well as on convicted minors, criminal offences committed and measures imposed, also at the national, regional and provincial levels and broken down by sex, age and nationality.

The Penal Code reform in July 2015, in the case of adults, eliminated misdemeanours, turning them into minor crimes, meaning that the increase in the number of convicted persons and in the number of penalties is due in part to the inclusion of these new crimes. This should be taken into account when interpreting time variations in the data.

In addition, as of 2017, more detailed information on sexual offences has been provided for both adults and minors.

Type of operation: annual continuous statistics.

Population scope: all persons aged 18 years and over, or 14 to 17 years, convicted by final judgement and registered, respectively, in the Central Register of Convicted Persons, in the Central Register for Criminal Responsibility of Minors and in the Central Register of Sex Offenders, during the reference period.

Geographical scope: the entire national territory.

Reference period for the results: the calendar year.

Reference period of the information: date of entry in the Register.

Collection method: statistical use of an administrative register.
