Revisions and data update

On the press release day, INE has updated ITI data series corresponding to the last 13 months. In the case of calendar adjusted and seasonally and calendar adjusted series, according to INE standard, series are revised since its beginning. Results are available at [INEBase](#).

According to the [Commission Delegated Regulation \(EU\) 2023/137](#) INE has started the works to incorporate the new National Classification of Economic Activities CNAE-2025 in all the statistical operations.

In the case of the ITI, the release of the first results with CNAE-2025 will take place in March 2028.

Methodological note

Industrial Turnover Indices (ITI) aim at measuring the monthly evolution of the companies belonging to the industrial sector in Spain, according to their turnover. This information is required broken down by markets.

Survey Type: ongoing monthly.

Base year: 2021.

Population scope: units of economic activity whose main activity is included in Sections B: Extractive industries (with the exception, due to their not being relevant to Spanish industry, of division 09) or C: Manufacturing industry of CNAE-2009.

Geographical scope: the whole country, excluding Ceuta and Melilla.

Results and information reference period: calendar month.

Sample size: Approx. 12,000 establishments.

Data collection: monthly, value of total business turnover broken down by market.

Collection method: fill in a questionnaire by the respondent using one of the following methods: internet (IRIA system), email, fax, telephone or post.

Further information is available in the [methodology](#) and in the [standardised methodological report](#).

INE's statistics are produced according to the European Statistics Code of Practice. For further information at [Quality at INE](#) and [Code of Practice](#).
