Consumer Price Index (CPI). Base 2006

April 2009

Overall index

	Monthly change	Change over last December	Annual change
April	1.0	-0.1	-0.2

Main results

- The **annual change** of the **CPI** for the month of **April** decreases one tenth and stands at **-0.2%**.
- **Annual core** inflation is **1.3%**, the same as that registered in March.
- The **monthly change** of the overall index is **1.0%**.
- The **Harmonised Index of Consumer Prices** (HICP) **annual change** stands at **-0.2%**, one tenth less than the previous month.

Annual changes

The annual change for the overall Consumer Price Index (CPI) in April was -0.2%, one tenth below that registered in the month of March.

The groups which most contributed to this decrease were:

➤ **Housing**, with an annual change of **1.6%**, more than two points lower than the change recorded in March. This decrease was largely due to the drop in price of *gas* as compared with the rise experienced in April 2008. The annual change of this division was -10.8%.

➤ **Food and non-alcoholic beverages**, with an annual change of **-0.1%**, seven tenths below that registered the previous month. This was the first time that this group registered a negative annual change since November 1997. The most noteworthy divisions, due to their contribution to this change, were *poultry meat*, *fresh fruit*, and *edible oils*.

In addition to the previously mentioned decreases, of note was the increase in the annual change of the following groups:

➤ **Recreation and culture**, whose annual change increased by more than two points, from **-0.8% to 1.6%**. This behaviour was explained mostly by the increase in price of *package holidays*, customary during the celebration of Easter Week. In addition, this division registered negative rates last year, as this festivity was celebrated in March.

➤ **Transport**, with an annual change of **-7.5%**, seven tenths higher than that registered in the month of March. This increase was due to the rise in price of *fuels and lubricants for personal transport equipment*. In turn, worth noting was the reduction in price of motor cars, which had registered an increase in April 2008.

The following graph shows how each of the groups contributed to the decrease of the overall CPI annual change for April:

The annual change of **core inflation** (overall index without unprocessed food or energy products) remained at **1.3%**, and therefore its difference from the overall index change stood at one-and-a-half points.

Annual evolution of the CPI, base 2006 Overall and Core

Monthly changes

In April, the monthly change of the overall CPI was **1.0%**.

Amongst the groups with the most relevant positive contribution to the overall index were the following:

- **Clothing and footwear**, with a monthly change of **9.4%**, which covered the performance of prices in the spring-summer sales period. Its contribution to the overall CPI in April was **0.736**.
- **Transport**, whose change of **1.4%** had a contribution of **-0.209** to the overall CPI. This change was explained by the rise in price of *fuels and lubricants for personal transport equipment*.
- **Recreation and culture**, with a change of **1.4%**, had a contribution of **0.107**. This behaviour was largely due to the rise in price of *package holidays*, due to the celebration of Easter Week.

Likewise, the group with the greatest negative monthly contribution during the month of April was the following:

- **Housing**, with a change of **-1.4%**, had a contribution of **-0.159** to the overall CPI, mainly due to the reduction in price of *gas and heating fuels*.

Monthly evolution of the CPI, base 2006
Overall index

Details of monthly changes

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of April.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
Food		
Fresh vegetables	0.6	0.005

Other divisions

Garments	10.1	0.591
Fuels and lubricants for personal transport equipment	3.5	0.210
Footwear	8.0	0.141
Package holidays	7.7	0.102
Accommodation services	7.5	0.058
Restaurants, cafés and the like	0.2	0.019

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
Food		
Poultry meat	-2.8	-0.021
Edible oils	-2.0	-0.011
Other divisions		
Gas	-13.2	-0.170

Autonomous Communities. Annual changes

The annual changes in the overall CPI in the Autonomous Communities are presented in the following graph:

Harmonised Index of Consumer Prices (HICP)

In April, the annual change of the HICP decreased one tenth, standing at **-0.2%**. This change was one tenth lower than the HICP flash estimate, published last 30 April.

The monthly change of the HICP was **1.0%**.
