

10 June 2009

Consumer Price Index (CPI). Base 2006

May 2009

Overall index

	Monthly change	Change over last December	Annual change
May	0.0	-0.1	-0.9

Main results

- The **annual change** of the **CPI** for the month of **May** decreases seven tenths and stands at **-0.9%**.
- **Annual core** inflation is **0.9%**, four tenths lower than that registered in April.
- The **monthly change** of the overall index is **0.0%**.
- The **Harmonised Index of Consumer Prices** (HICP) **annual change** stands at **-0.9%**, seven tenths less than the previous month.

Annual changes

The annual change for the overall Consumer Price Index (CPI) in May was -0.9%, one tenth below that registered in the month of April.

The groups which most contributed to this decrease were:

➤ **Transport**, with an annual change of **-9.1%**, almost two points lower than the change recorded in April. This decrease was due to the fact that the rise in price of *fuels and lubricants for personal transport equipment* was lower this year than in May 2008. Its annual change stood at -24.0, the lowest since August 1986.

➤ **Food and non-alcoholic beverages**, registered an annual change of **-0.8%**, seven tenths below that registered the previous month. This is the lowest annual change for this group since October 1997. The most noteworthy divisions, due to their contribution to this change, were *poultry meat, milk and fresh fruit*.

➤ **Recreation and culture**, with an annual change of **0.0%**, more than one-and-a-half points lower than the change recorded in April. This decrease is largely explained by the drop in price of *package holidays*, this being typical after Easter Week.

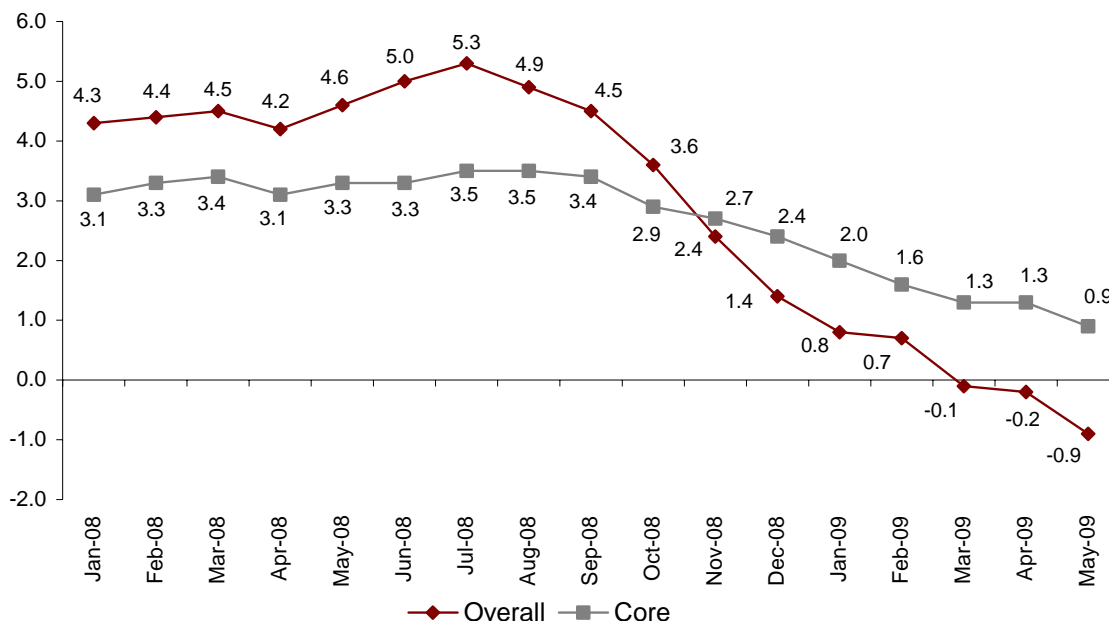

The following graph shows how each of the groups contributed to the decrease of the overall CPI annual change for May:

The annual change of **core inflation** (overall index without unprocessed food or energy products) decreased four tenths to stand at **0.9%**, and therefore its difference from the overall index change stood almost two points. It is the first time that core inflation has stood below 1.0%.

Annual evolution of the CPI, base 2006

Overall and Core

Monthly changes

In May, the monthly change of the overall CPI was **0.0%**.

Amongst the groups with the most relevant positive contribution to the overall index were the following:

- **Clothing and footwear**, with a monthly change of **1.6%**, which covered the performance of prices in the spring-summer sales period. Its contribution to the overall CPI in May was **0.132**.
- **Transport**, whose change of **0.8%** had a contribution of **-0.121** to the overall CPI. This change was explained by the rise in price of *fuels and lubricants for personal transport equipment*.

Likewise, the groups with the greatest negative monthly contribution during the month of May were the following:

- **Recreation and culture**, whose change of **-1.5%** is due to the drop in prices of package holidays following the end of Easter. Its contribution was **-0.114**.
- **Food and non-alcoholic beverages**, with a change of **-0.5%**, and with a contribution of **-0.095** to the overall CPI, largely due to the decrease in price of the majority of its components, among which *milk* and *poultry meat* were of note.
- **Health**, whose change of **-2.1%** was explained by the drop in prices of *medicaments and other pharmaceutical products*. Its contribution to the overall index was **-0.066**.
- **Restaurants, cafés and hotels**, with a monthly change of **-0.1%** and a contribution of **-0.019**, due to the drop in prices of *accommodation services* after Easter, and to their stability in *restaurants, cafés and the like*.

Monthly evolution of the CPI, base 2006

Overall index

Details of monthly changes

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of May.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
Food		
Fish and seafood	0.4	0.002
Other divisions		
Fuels and lubricants for personal transport equipment	1.7	0.107
Garments	1.4	0.090
Footwear	2.2	0.042
Other fuels	3.4	0.014

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
Food		
Milk	-3.3	-0.032
Poultry meat	-2.2	-0.016
Other divisions		
Package holidays	-8.4	-0.119
Medicaments and other pharmaceutical products	-7.2	-0.068

Autonomous Communities. Annual changes

The annual changes in the overall CPI in the Autonomous Communities are presented in the following graph. It can be seen that, with the exception of the Autonomous City of Ceuta, they all presented negative annual changes.

Harmonised Index of Consumer Prices (HICP)

In May, the annual change of the HICP decreased seven tenths, standing at **-0.9%**. This change was one tenth lower than the HICP flash estimate, published last 28 May.

The monthly change of the HICP was **0.0%**.
