

11 July 2008

**Consumer Price Index (CPI). Base 2006**

**June 2008**

**Overall index**

	Monthly change	Change over last December	Annual change
June 2008	0.6	2.8	5.0

**Main results**

- The **annual change** of the **CPI** for the month of **June** increases four tenths and stands at **5.0%**.
- The **annual** change of **core inflation** is **3.3%**, the same as that registered in May.
- The **monthly change** of the overall index is **0.6%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **5.1%**, four tenths greater than the previous month.

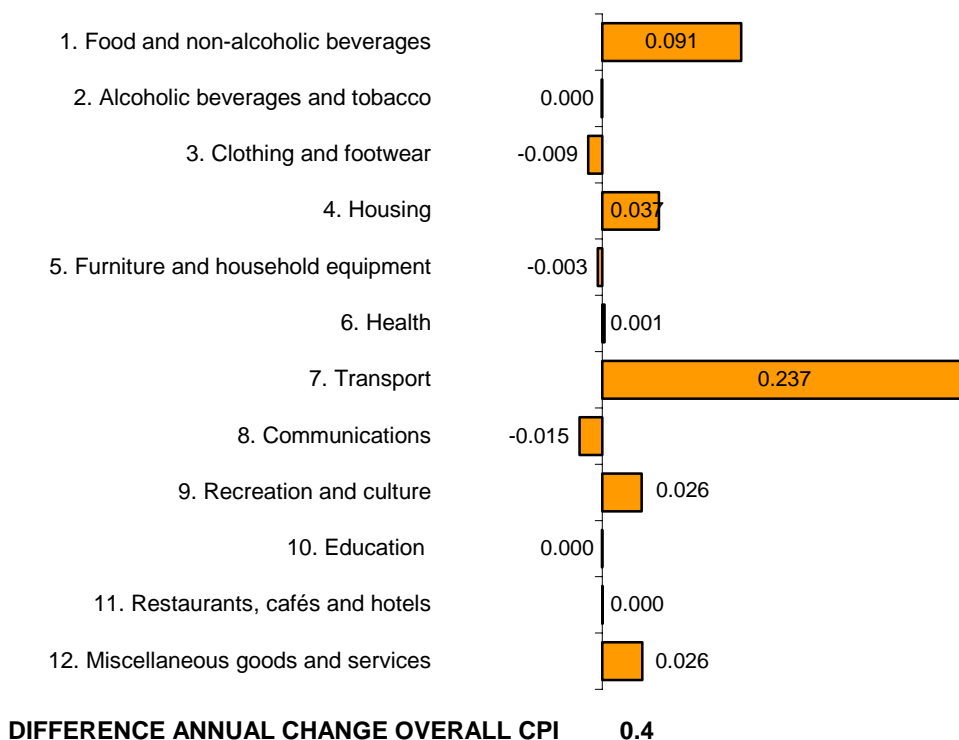

## Annual Change

The annual change for the overall Consumer Price Index (CPI) in June was **5.0%**, four tenths more than that registered in May.

The groups which most contributed to this increase were:

- **Transport**, with an annual change of **10.0%**, more than one-and-a-half points higher than in May. This increase was explained to a large extent by the more substantial rise in price of *fuels and lubricants for personal transport equipment* this month than in June 2007.
- **Food and non-alcoholic beverages**, whose annual change increased five tenths, standing at **7.2%**, largely due to the evolution in price of *fresh fish*, which increased more than in June last year, and of *fresh potatoes and potatoes preparations* and *poultry meat*, which increased in June 2008, compared to the decrease experienced in the same month of 2007.
- **Housing**, with an annual change of **6.9%**, three tenths greater than in May, mainly due to an increase in price of *heating fuels* over those for June 2007.
- **Recreation and culture**, whose annual change stood at **-0.2%**, as compared with **-0.6%** recorded in May. This change was due to the increase in price of *package holidays* this month over those for June last year.
- **Miscellaneous goods and services**, with a change of **3.5%**, three tenths higher than last month, due to the increase in price of *insurance connected with transport*, which did not change in June 2007.

The following graph shows how each of the groups has contributed to the increase by four tenths of the overall CPI annual change for June:

The annual change for **core inflation** (overall index without unprocessed food or energy products) remained at **3.3%**, and therefore its difference from the overall index change stood at one point and seven tenths.

### Annual evolution of the CPI, base 2006

Overall and Core

### Monthly changes

During the month of June, the monthly change of the overall CPI was **0.6%**.

Amongst the groups with the most relevant positive contribution to the overall index we found the following:

- **Transport**, with a monthly change of **1.9%** had a contribution of **0.298** to the overall index. This behaviour was largely due to the increase in the price of *fuels and lubricants for personal transport equipment*.
- **Food and non-alcoholic beverages**, with a **0.6%** change and a contribution of **0.130** in comparison with the previous month. In this change it is worth noting the increase in price of *fresh fish and fresh potatoes and potatoes preparations*.
- **Housing**, with a monthly change of **0.6%** had a contribution of **0.064**. This change is due to the increase in price of *heating fuels*.
- **Restaurants, cafes and hotels**, with a monthly change of **0.5%**, which reflected the evolution of the prices of all its components. Its contribution to the overall CPI in June was **0.057**.

The only group showing a negative monthly contribution over the month of June was the following:

➤ **Clothing and footwear**, with a monthly change of **-0.8%**, reflecting the performance of prices prior to the beginning of the sales period. Its contribution to the overall CPI was **-0.065**.

## Monthly evolution of the CPI, base 2006 Overall index

## Details of inter-monthly changes

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of June.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
<b>Food</b>		
Fresh Fish	5.1	0.058
Fresh potatoes and potatoes preparations	6.1	0.021
<b>Other divisions</b>		
Fuels and lubricants for personal transport equipment	4.4	0.277
Package holidays	3.9	0.053
Other fuels	8.9	0.046
Restaurants, cafés and the like	0.3	0.029
Accommodation services	3.7	0.028
Insurance connected with transport	1.1	0.022

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
<b>Food</b>		
Milk	-0.4	-0.005
<b>Other divisions</b>		
Garments	-0.9	-0.059
Information processing equipment	-3.4	-0.013

### Autonomous Communities. Annual changes

The annual changes in the overall CPI in the Autonomous Communities are presented in the following graph:

### Harmonised Index of Consumer Prices (HICP)

In the month of June, the HICP registered an annual change of **5.1%**, four tenths higher than that of the month of May. This change was the same as that estimated by with the HICP flash estimated, published last 27 June.

The monthly change of the HICP was **0.6%**.
