

13 August 2008

Consumer Price Index (CPI). Base 2006

July 2008

Overall index

	Monthly change	Change over last December	Annual change
July 2008	-0.5	2.3	5.3

Main results

- The **annual change** of the **CPI** for the month of **July** increases three tenths and stands at **5.3%**.
- The **annual** change of **core** inflation is **3.5%**, two tenths more than the change registered in June.
- The **monthly change** of the overall index is **-0.5%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **5.3%**, two tenths greater than the previous month.

Annual changes

The annual change for the overall Consumer Price Index (CPI) in July was **5.3%**, three tenths more than that registered in June.

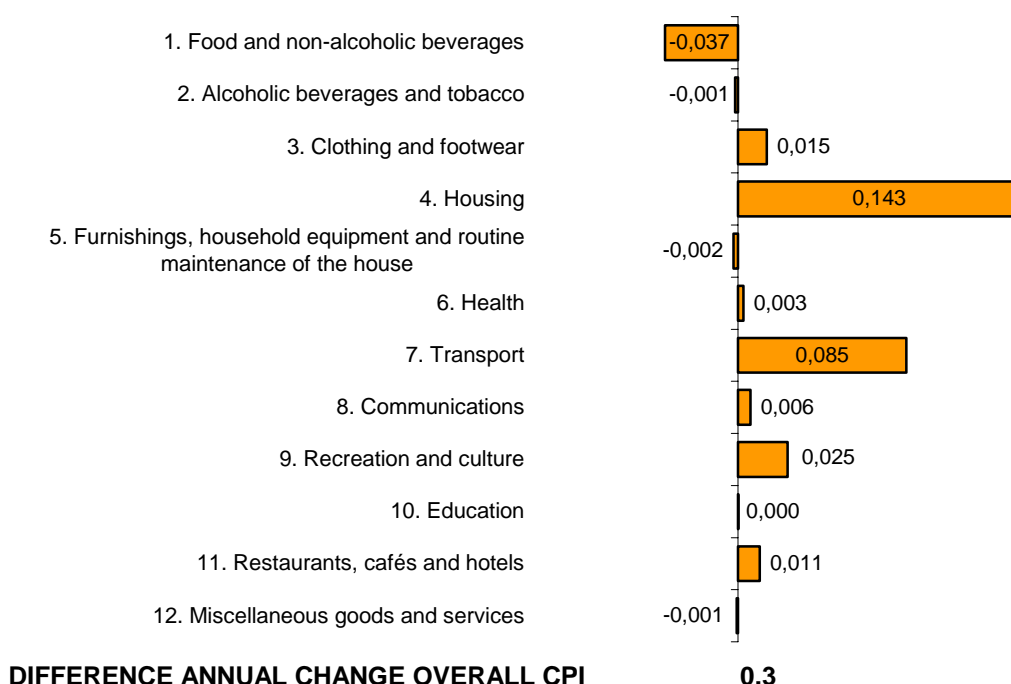

The groups which most contributed to this increase were:

- **Housing**, whose annual change increased one-and-a-half points, standing at **8.4%**, largely due to the increase in the price of *electricity*.
- **Transport**, with an annual change of **10.6%**, more than half a point higher than in June. This increase was explained to a large extent by the fact that the prices of *fuels and lubricants for personal transport equipment* increased more than in July 2007.
- **Recreation and culture**, with an annual change of **0.1%**, three tenths higher than the change recorded in June. Worth noting in this increase was the performance of *newspapers and periodicals* and of *information processing equipment*.

In addition to the aforementioned increases, the decrease in the annual change of the following group stood out:

- **Food and non-alcoholic beverages**, with an annual change of **7.0%**, two tenths below the change registered last June, largely due to the decreases in the prices of *fresh fish* and *milk*, as compared with the increases experienced in July 2007.

The following graph shows how each of the groups contributed to the increase by three tenths of the overall CPI annual change for July:

The annual change for **core inflation** (overall index without unprocessed food or energy products) increased to **3.5%**, and therefore its difference from the overall index change stood at 1.8 points.

Annual evolution of the CPI, base 2006

Overall and Core

Monthly changes

In July, the monthly change of the overall CPI was **-0.5%**.

Amongst the groups with the most relevant positive contribution to the overall index were the following:

- **Housing**, with a monthly change of **1.7%**, had a contribution of **0.179** to the overall index. This change was almost entirely due to the increase in the price of *electricity*.
- **Restaurants, cafés and hotels**, with a change of **1.0%**, due to the increase in the prices of all of their components. The monthly contribution of this group was **0.120**.
- **Transport**, whose change of **0.7%** contributed **0.115** as compared with the previous month. This behaviour was explained by the rise in the prices of *fuels and lubricants for personal transport equipment* and of *passenger transport by air*.
- **Recreation and culture**, with a change of **1.1%**, which contributed **0.083** to the overall index, mainly due to the change in the price of *package holidays*.

Likewise, amongst the groups with a negative monthly contribution in the month of July was the following:

- **Clothing and footwear**, whose monthly change of **-11.3%** reflected the usual behaviour of prices during sales seasons. Its contribution to the overall CPI was **-0.960**.

Monthly evolution of the CPI, base 2006 Overall index

Details of monthly changes

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of July.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
Food		
Fresh fruit	0.7	0.010
Other divisions		
Electricity	6.7	0.161
Fuels and lubricants for personal transport equipment	1.4	0.090
Accommodation services	11.1	0.087
Package holidays	6.2	0.087
Restaurants, cafés and the like	0.3	0.034
Passenger transport by air	4.6	0.014

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
Food		
Fresh fish	-1.8	-0.021
Other divisions		
Garments	-11.9	-0.758
Footwear	-10.1	-0.190

Autonomous Communities. Annual changes

The annual changes in the overall CPI in the Autonomous Communities are presented in the following graph:

Harmonised Index of Consumer Prices (HICP)

In the month of July, the HICP registered an annual change of **5.3%**, two tenths higher than that for the month of June. This change coincided with that anticipated by the HICP flash estimated, published last 31 July.

The monthly change of the HICP was **-0.5%**.
