

10 September 2010

Consumer Price Index (CPI). Base 2006
August 2010

Overall index

	Monthly change	Change over last December	Annual change
August	0.3	0.8	1.8

Main results

- The **annual change** of the CPI for the month of August decreases one tenth and stands at **1.8%**.
- The **annual core** inflation is **1.0%**, two tenths higher than that registered in July.
- The **monthly change** of the overall index is **0.3%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **1.8%**, one tenth less than the previous month.

Annual evolution of consumer prices

The annual change for the overall Consumer Price Index (CPI) in August was 1.8%, one tenth below the change registered in July.

The groups which most contributed to this decrease were:

- **Transport**, with an annual change of **5.1%**, more than one point below that recorded in July. This decrease was explained by the fact that the prices of *fuels and lubricants for personal transport equipment* showed no change this month, as compared with the increase registered in August last year.
- **Housing**, whose annual change decreased four tenths, standing at **3.9%**. This evolution was mainly explained by the drop in prices of *heating fuels*, which increased in 2009.

Despite the decrease in the annual change in the overall index, worth noting was the increase in the change for the groups:

• **Food and non-alcoholic beverages**, with a change of **-0.1%**, two tenths higher than the previous month. The divisions which stood out due to their contribution to this change were *other milk-based products* and *fresh fruit*.

• **Recreation and culture**, which registered an annual change of **-0.1%**, six tenths higher than for July, due to the performance of *package holidays*, whose prices increased more than in 2009.

Contribution of groups to the annual change of the CPI

The annual change of **core inflation** (overall index without unprocessed food or energy products) increased two tenths to **1.0%**, and its difference from the overall index change stood at eight tenths.

**Annual evolution of the CPI
Index, overall and core**

Monthly evolution of consumer prices

In August, the monthly change of the overall CPI was **0.3%**.

The groups with the greatest positive monthly contribution to the overall index were the following:

- **Restaurants, cafés and hotels**, which increased their prices **0.9%** during the month of August. This performance was mostly explained by the increase in prices of *accommodation services*, customary in the summer season. Its contribution to the overall CPI was **0.111**.
- **Recreation and culture**, which registered a monthly change of **1.2%** and a contribution of **0.093**. This increase was due to the rise in prices of *package holidays*, customary at this time of year.
- **Food and non-alcoholic beverages**, whose monthly change of **0.4%** was due to the increase in prices of the majority of its components. Among these changes, worth noting were those registered in *other milk-based products*, *fresh fish*, *fresh fruit* and *poultry meat*. Their contribution to the overall index was **0.079**.

Likewise, among the groups with a negative contribution to the overall index, the most relevant groups were:

- **Clothing and footwear**, with a monthly change of **-0.8%** and a contribution of **-0.056**, reflecting the performance of prices in the last month of sales.
- **Housing**, whose monthly change of **-0.1%** was largely due to the drop in prices of *heating fuels*. Its contribution to the overall CPI was **0.012**.

Monthly evolution of the CPI Overall index

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of August.

Activities with the greatest positive contribution to the monthly change of the CPI.

	Monthly change (%)	Contribution
Food products		
Other milk-based products	3.2	0.023
Fresh fish	1.8	0.018
Fresh fruit	0.9	0.011
Poultry meat	1.3	0.010
Other divisions		
Accommodation services	10.7	0.095
Package holidays	6.1	0.092
Restaurants, cafés and the like	0.1	0.016
Articles and products for personal care	0.7	0.012
Maintenance and repair of personal transport equipment	0.6	0.012

Activities with the greatest negative contribution to the monthly change of the CPI.

	Monthly change (%)	Contribution
Food products		
Fresh potatoes and potatoes preparations	-0.9	-0.003
Other divisions		
Garments	-0.7	-0.038
Footwear	-1.0	-0.017
Other fuels	-3.5	-0.017

Results by Autonomous Community. Annual changes

All of the Autonomous Communities decreased or maintained their annual change in August 2010, as compared with the previous month.

The greatest decreases, of two tenths, corresponded to the Autonomous Communities of Aragón (1.8%), Extremadura (1.7%), Galicia (1.8%), País Vasco (1.7%) and La Rioja (1.6%).

In turn, Illes Balears, Cantabria, Región de Murcia and Comunidad Foral de Navarra registered an annual change of 1.8%, the same as in July 2010.

Annual changes of the CPI

Index by Autonomous Community and autonomous city

Harmonised Index of Consumer Prices (HICP)

In August, the annual change of the HICP decreased one tenth, standing at **1.8%**. This change coincided with that anticipated by the HICP flash estimate, published last 30 August.

The monthly change of the HICP was **0.3%**.

Annual evolution of the HICP, base 2005

Overall index for Spain and the European Monetary Union ¹

¹ The last data from the European Monetary Union refers to the flash estimate

In turn, the HICP at Constant Taxes (HICP-CT) registered, in the month of **July** 2010, an annual change of **0.8%**, more than one point below that recorded by the HICP for said month (**1.9%**), due to the rise in VAT.

The monthly change of the HICP-CT was **-1.5%**.

10th September 2010
