

14 October 2008

**Consumer Price Index (CPI). Base 2006**

**September 2008**

**Overall index**

	Monthly change	Change over last December	Annual change
September 2008	0.0	2.0	4.5

**Main results**

- The **annual change** of the **CPI** for the month of **September** decreases four tenths and stands at **4.5%**.
- The **annual** change of **core** inflation is **3.4%**, one tenth less than the change registered in August.
- The **monthly change** of the overall index is **0.0%**.
- The **Harmonised Index of Consumer Prices (HICP) annual change** stands at **4.6%**, three tenths less than the previous month.

### Annual changes

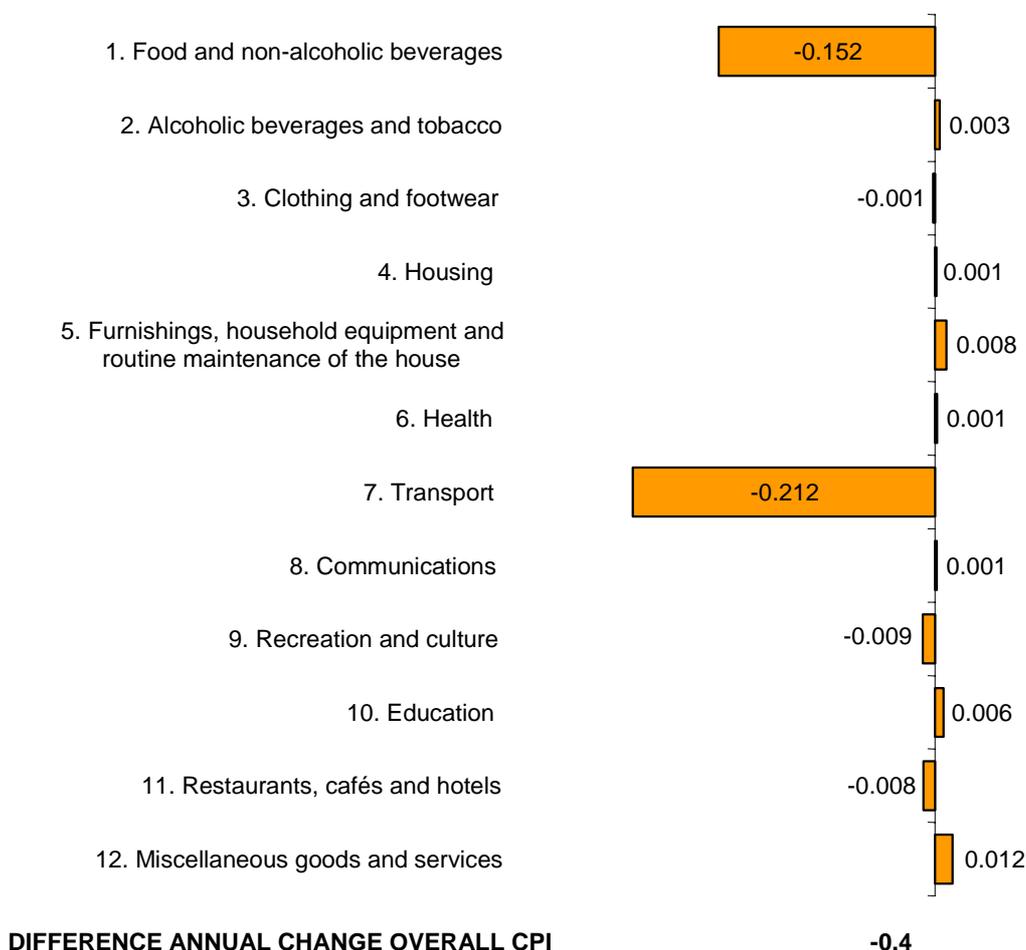

The annual change for the overall Consumer Price Index (CPI) in September was **4.5%**, four tenths below than the change registered in August.

The groups which most contributed to this decrease were:

➤ **Transport**, with an annual change of **7.2%**, almost 1.5 points lower than the change recorded this last August. This change is largely due to the decrease in price of *fuels and lubricants for personal transport equipment*, as compared with the increase experienced in September 2007.

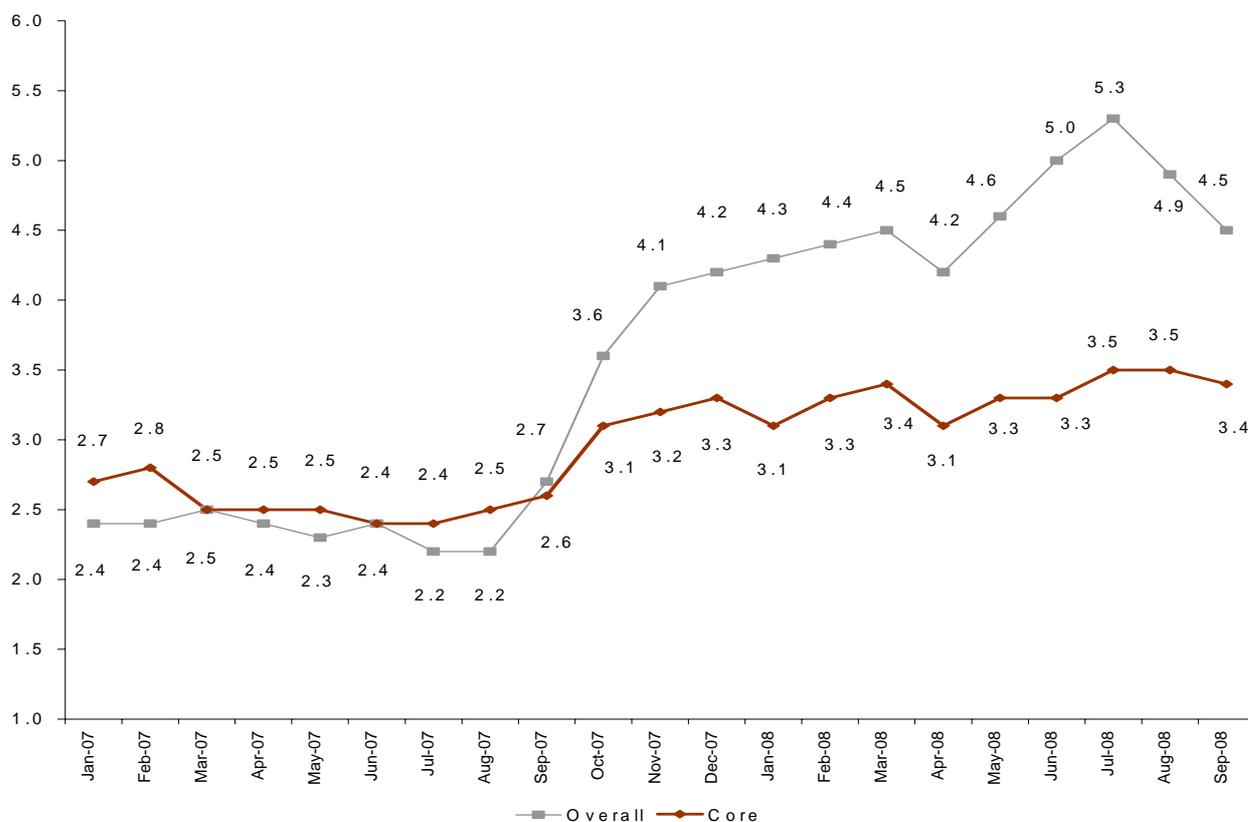

➤ **Food and non-alcoholic beverages**, with an annual change of **6.1%**, seven tenths below the change registered last month, largely due prices of *milk, bread and poultry meat* having increased to a lesser degree than in September 2007.

The following graph shows how each of the groups contributed to the decrease by four tenths of the overall CPI annual change for September:

The annual change for **core inflation** (overall index excluding energy and unprocessed food) decreased one tenth to **3.4%**, and therefore its difference from the overall index change stood at 1.1 points.

## Annual evolution of the CPI, base 2006 Overall and Core

### Monthly changes

In September, the monthly change of the overall CPI was **0.0%**.

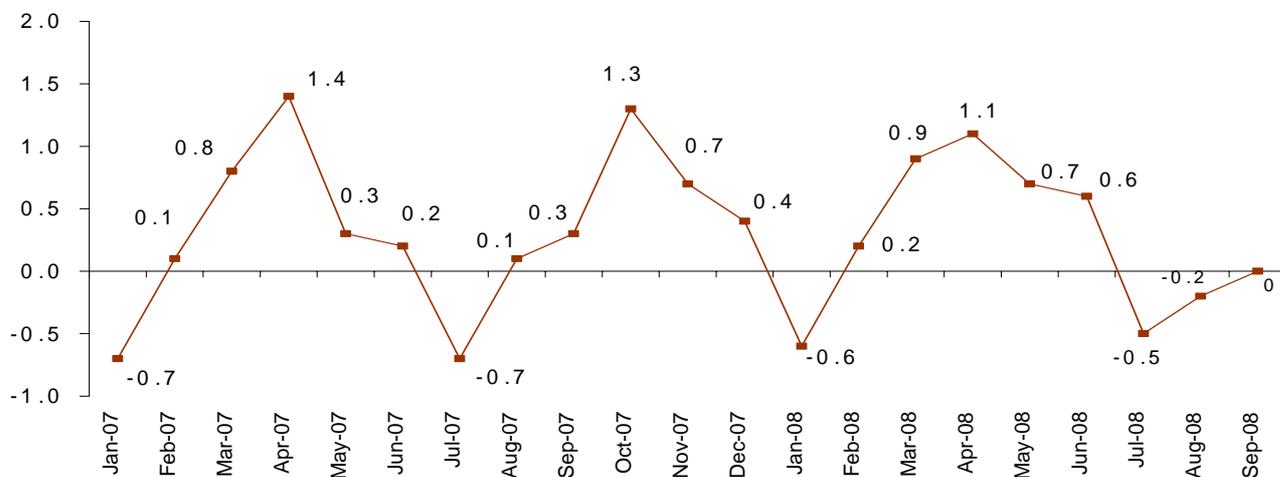

Amongst the groups with the most relevant positive contribution to the overall index were the following:

- **Clothing and footwear**, whose monthly change of **3.6%** reflected the behaviour of prices after the end of the sales period and the beginning of the winter season. Its contribution to the overall CPI was **0.271**.
- **Food and non-alcoholic beverages**, whose change of **0.2%** contributed **0.049**. This evolution was explained to a large extent by the increase in the price of sheep meat, poultry meat and beef.

Likewise, amongst the groups with a negative monthly contribution in the month of September were the following:

- **Transport**, whose change of **-1.1%** contributed **-0.166** as compared with the previous month. This behaviour was explained by the decrease in the prices of *fuels and lubricants*.
- **Recreation and culture**, with a change of **-1.7%**, which contributed **-0.128** to the overall index, mainly due to the change in the price of *package holidays*.
- **Restaurants, cafés and hotels**, with a change of **-0.9%**, due to the decrease in the prices of *accommodation services*, as is customary during the summer season. Its contribution to the overall CPI in September was **-0.113**.

**Monthly evolution of the CPI, base 2006  
Overall index**

**Details of monthly changes**

A more detailed analysis showed the divisions that had the greatest contribution to the monthly CPI change during the month of September.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
<b>Food</b>		
Sheep meat	4.9	0.015
<b>Other divisions</b>		
Garments	3.9	0.217
Footwear	2.5	0.042
Restaurants, cafés and the like	0.2	0.020

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
<b>Food</b>		
Potatoes and their by-products	-1.7	-0.006
<b>Other divisions</b>		
Fuels and lubricants	-2.8	-0.178
Accommodation services	-14.1	-0.136
Package holidays	-8.4	-0.133

## Autonomous Communities. Annual changes

The annual changes in the overall CPI in the Autonomous Communities are presented in the following graph:

## Harmonised Index of Consumer Prices (HICP)

In the month of September, the HICP registered an annual change of **4.6%**, three tenths lower than that for the month of August. This change coincided with that anticipated by the HICP flash estimate, published last 29 September.

The monthly change of the HICP was **0.0%**.
