- **Miscellaneous goods and services**, that presented an annual change of **3.4%**, eight tenths higher than September, mainly due to the increase in prices of *services for personal care*, that increased more than in October 2011, and *other services*, whose increased contrast with the stability registered in 2011.
- **Recreation and culture**, that increase its rate eight tenths, standing at **2.0%**, mainly due to the increase in prices of *recreational and sporting services*, as compared with drop registered in 2011, and *cultural services*.

Despite the increase of the annual change of the CPI, worth noting the decrease in price of the following groups:

• **Housing**, whose annual variation decreased more than one point up to **6.1%**. This drop was due to the decrease of prices of electricity, as compared with the stability of the previous year, and the gas and other fuels, which increased in October 2011.

• **Transport**, with an annual change seven tenths lower than the previous month, that stood at **6.5%**. This behaviour was explained by the the drop in prices of *fuels and lubricants for personal transport equipment* and *motor cars*.

The annual change for **core inflation** (overall index excluding unprocessed food and energy products) increased four tenths, up to **2.5%**, the greatest since November 2008. The difference from the overall index change decreased and stood at one point.
