## Industrial Price Index (IPRI). Base 2010

August 2013. *Provisional data*

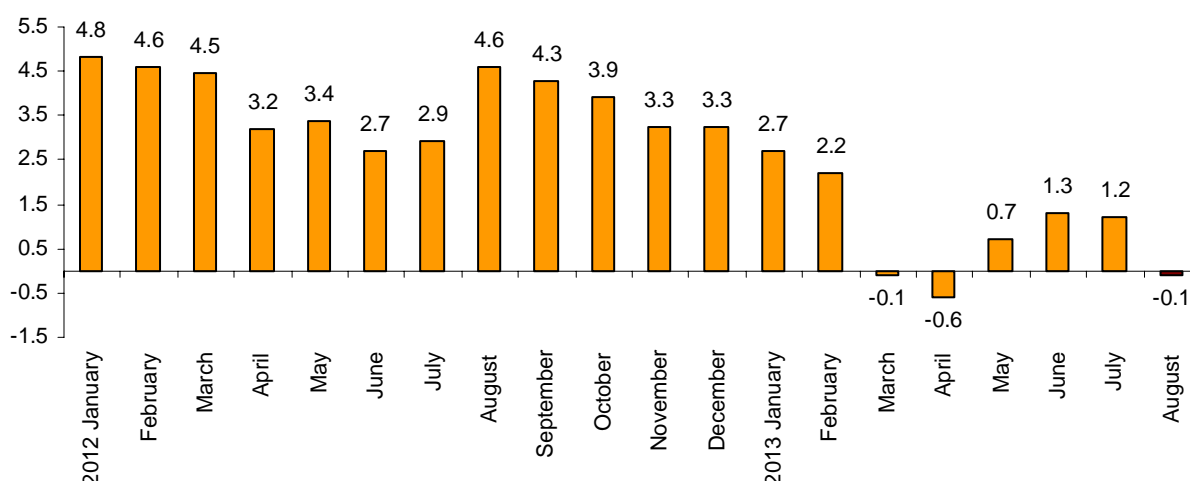

**The annual rate of the Industrial Price Index stands at  $-0.1\%$ , over one point below that registered in July**

**The monthly variation rate of the Industrial Price Index is  $-0.1\%$**

### Annual evolution of industrial prices

The annual rate of the Industrial Price Index (IPRI) stood at  $-0.1\%$  in August, over one point below that registered in July.

Annual evolution of IPRI  
General index

By economic destination of the goods, the industrial sectors that most influenced the decrease in the general rate of the IPRI were:

- **Energy**, whose rate stood at  $-0.8\%$ , over three and a half points below that registered in July. This drop was due to decrease in the prices of *Production, transportation and distribution of the electric power*, which increased in August 2012. Also, *Petroleum refinement* registered a lower increase this month, as compared with the same month of the previous year.

Within this sector, it is worth noting the increase of almost nine points in the annual rate of *Gas production; piped distribution of gaseous products* that stood at  $16.0\%$ .

- **Intermediate goods**, whose annual variation decreased seven tenths standing at **-1.3%**, its lowest rate since December 2009. This behaviour was due mainly to the decrease in the prices of *Manufacture of feed products for animals* as compared with the increase registered in 2012.

- **Non-durable consumer goods**, whose variation stood at **2.0%**, six tenths below that of July, due to the decrease in prices of *Manufacture of vegetable and animal oils and fats*.

## Influence of the industrial sectors in the annual rate of the IPRI

## Monthly evolution of industrial prices

In August, the monthly variation of the general IPRI was **-0.1%**.

By economic destination of the goods, the industrial sectors with the greatest negative monthly effect in the general index were:

- **Energy**, with a monthly variation of **-0.4%**, due to a decrease in the prices of *Production, transportation and distribution of the electric power*. Its effect on the general IPRI was **-0.116**. It is also worth noting the increase in the prices of *Gas production; piped distribution of gaseous products*.

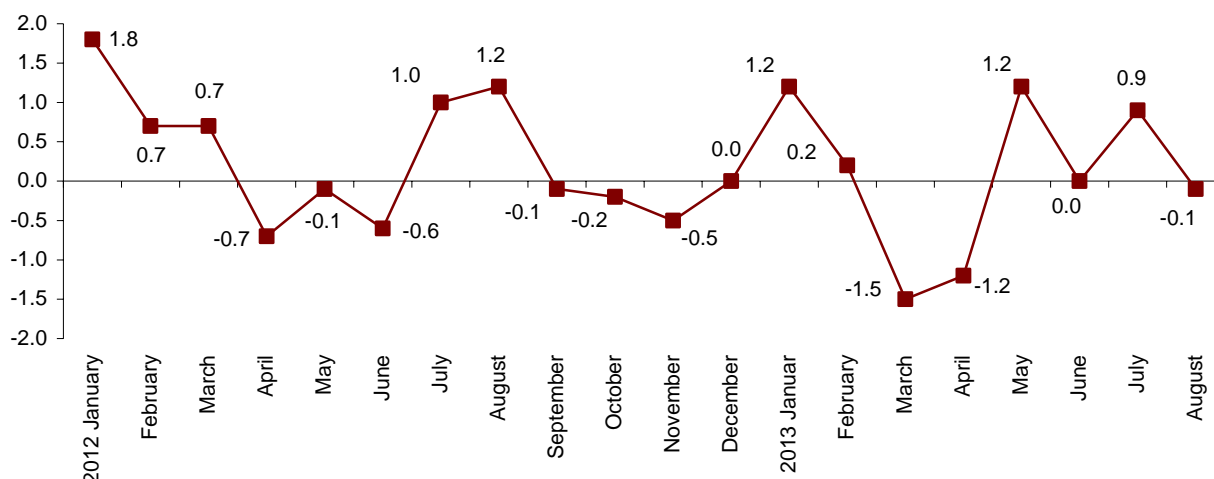

- **Intermediate goods**, with a variation of **-0.2%**, and an effect of **-0.067**, reflecting the decrease in the prices of *Manufacture of feed products for animals*.

In turn, the sectors that registered a positive monthly effect in the general index were:

- **Non-durable consumer goods**, with a variation of **0.1%**, due to the increase in the prices of *Processing and preserving of meat and manufacture of meat products*. Its effect on the general index was **0.022**.

- **Capital goods**, with a variation of **0.1%** and an effect of **0.015** due to the increase in the prices of *Repair of metal products, machinery and equipment* and *Manufacture of medical and dental instruments and supplies*.

**Monthly evolution of the IPRI**  
**General index**

A more detailed analysis showed the activities that most affected the monthly rate of the IPRI in the month of August.
