¹ Due to the updating in the directory of establishments carried out in Región de Murcia, the data to be published since January 2013 (for Navarra and the national total) are not directly comparable with the data published last year, therefore, data link coefficients have been calculated to allow the comparison of data between different years. These coefficients are available in INE website (www.ine.es)

³ To facilitate the comparability between data from different Autonomous Communities (and because of the different regulation and different characteristics), a group called rural house has been created, with those establishments with similar typology (location, capacity, etc...). The variables included in the previous table have been estimated with that type of establishments.
