

Hotel Tourism Short-Term Trends (HOS/HPI/HII)
July 2008. *Provisional data*

Overnight stays in hotel establishments increase 0.9% in July as compared with the same month in 2007

The interannual rate of hotel prices increases 2.4%

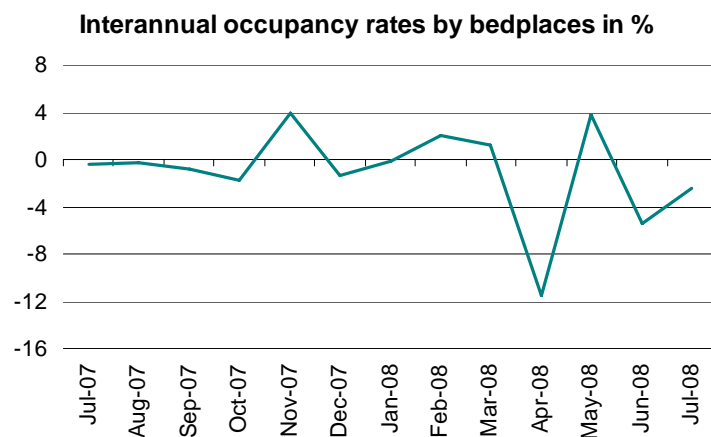

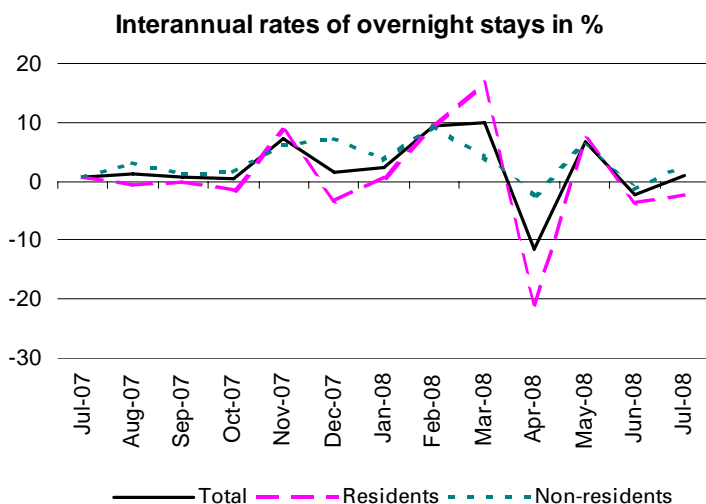

During the month of July, 34.6 million overnight stays were recorded in hotel establishments, indicating a 0.9% increase as compared with the same month in 2007. Overnight stays by guests resident in Spain decreased 2.2%, while those by non-residents presented an increase of 2.9%.

The average stay grew 0.2%, in interannual terms, standing at 3.8 nights per guest.

During the first seven months of the year, 153.3 million overnight stays were registered, that is, 1.3% more than the same period of the previous year, with a decrease of 0.5% for residents and an increase of 2.7% for non-residents. The **average stay** stood at 3.2 nights per guest, 0.3% more than in the same period in 2007.

On the other hand, the **Hotel Price Index (HPI) registered a growth of 2.4%** in the month of July, with a rate 1.2 points lower than that recorded the same month of 2007.

During the month of July, 66.2% of the available bedplaces were filled, 2.5% less than the same month of the previous year. **The weekend occupancy rate by bedplaces was 70.4%**, with an interannual decrease of 2.6%.

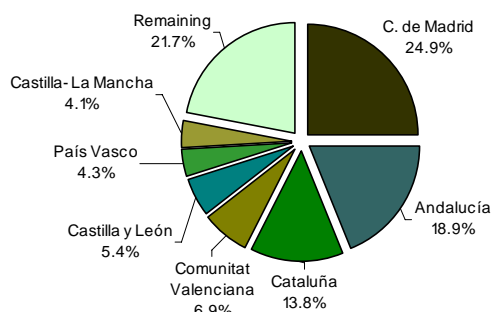

Overnight stays of German citizens increase

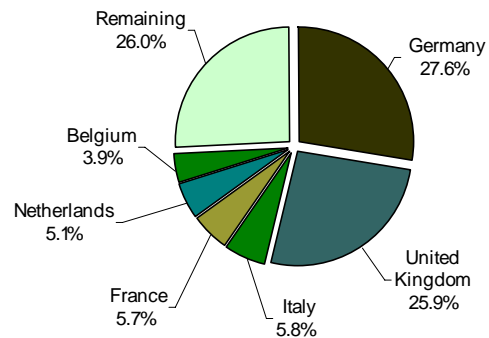

Guests from Germany and the United Kingdom made 11.2 million overnight stays in July, accounting for 53.5% of the total for non-residents. The German market experienced an interannual increase in overnight stays of 2.9%, while the British market experienced a 5.7% decrease.

Overnight stays of guests from Italy, France and the Netherlands (the following markets) registered interannual rates of 3.7%, 4.9% and 12.5%, respectively.

Overnight stays of Spanish guests by Autonomous Community of origin in %

Overnight stays of foreign guests by country of origin in %

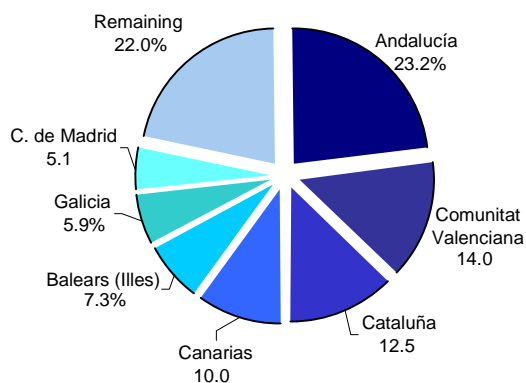

Illes Balears is the preferred destination for non-resident guests in Spain

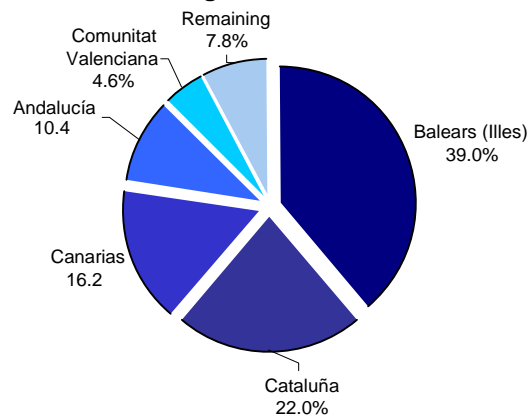

The main destination chosen by non-residents was Illes Balears, the Autonomous Community in which overnight stays by foreign nationals, representing 39.0% of the national total, decreased 0.2% as compared with July 2007. It was followed by Cataluña, with an interannual rate of 5.9%, and Canarias, with a rate of 5.1%.

Andalucía, Comunitat Valenciana and Cataluña were the preferred destinations of residents, with decreases in the interannual rates of overnight stays (-0.4%, -5.8% and -4.7%, respectively).

Distribution of overnight stays of Spanish guests in %

Distribution of overnight stays of foreign guests in %

Illes Balears reaches the highest occupancy rate

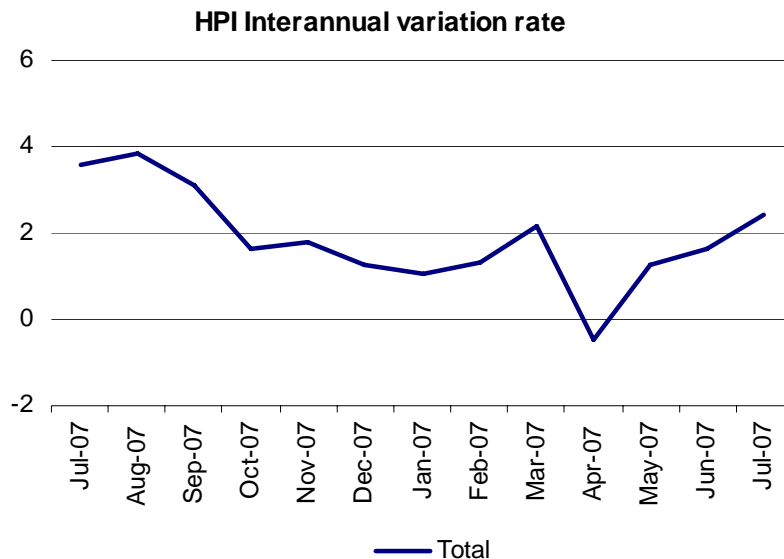

During the month of July, Illes Balears was the Autonomous Community with the highest occupancy rate by bedplaces (87.0%), ahead of Canarias (74.0%) and Cataluña (70.1%).

The **tourist areas** with the highest occupancy and overnight stay rates were located on the islands and the coasts. The island of Mallorca reached both the highest occupancy rate by bedplaces (88.5%), and the highest weekend occupancy rate by bedplaces (87.5%), as well as the highest number of overnight stays in July, more than 6.9 million.

The **tourist sites** with the highest number of overnight stays were Calviá, Madrid and Barcelona. Conversely, Muro had the highest occupancy rate by bedplaces (99.9%) and had the highest weekend occupancy rate (99.4%).

Hotel prices record an interannual rate of 2.4% in July

The interannual increase in the HPI stood at 2.4% in July, 0.8 points higher than the rate from the previous month, and 1.2 points below the rate registered one year ago.

Uneven performance of prices in the Autonomous Communities

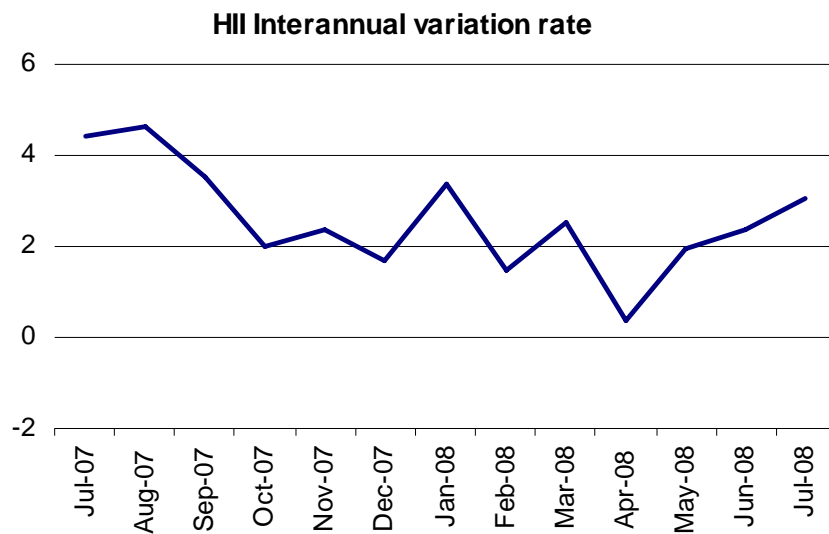

The four Communities (Illes Balears, Cataluña, Andalucía and Canarias) which accounted for 69.8% of the total weight of the Hotel Price Index in the month of July, recorded varying interannual evolution.

Thus, Illes Balears, which maintained the greatest load in the weighting structure this month (21.9%), showed an interannual rate of 9.6%, that is, 5.1 points higher than the rate estimated in June (4.5%). In Cataluña, hotel prices experienced a 1.0% increase, as compared with the 0.8% recorded the previous month. Conversely, Andalucía recorded an interannual rate of -1.1%, as compared with the -0.8% the previous month. In Canarias, the interannual rate was 1.2%, that is, 0.6 points lower than that obtained in June (1.8%).

The HII experiences an interannual increase of 3.1% in July

The Hotel Income Index (HII), which unlike the HPI also considers the variation in the tariff structure, reflected an interannual evolution of income per occupied room of 3.1% in July, 1.3 points lower than the rate recorded the same month the previous year.

The four most important Communities in this indicator in July displayed uneven behaviour in hotel income as compared with July 2007: Illes Balears (10.8%), Cataluña (2.6%), Andalucía (-0.3%), and Canarias (0.3%).

Methodological note 2008

Hotel Price Index - Hotel Income Index

As of the year 2000, the INE has published the Hotel Price Index (HPI) and the Hotel Income Index (HII), compiled with the information that hotel businesspersons include in a specific section of the Hotel Occupancy Survey questionnaire.

This part of the questionnaire has not been modified since it was incorporated in said year 2000. Nevertheless, the changes that have taken place in the sector over these past eight years have encouraged the introduction of certain modifications in said section of the questionnaire. With these changes, we hope, on the one hand, **to collect the new distribution channels favoured by generalised Internet use**, and on the other hand, **to adapt the questionnaire to the terms and concepts that are most frequently used within the sector**, as well as the data available in the business management systems themselves.

This improvement will make it possible, **beginning in the year 2009, for the INE to disseminate the whole of the new variables required by the sector, these variables being considered ideal for measuring profitability**: the ADR (Average Daily Rate) and the RevPar (Average income per available room).

Throughout the year 2008, the HPI and the HII will continue to be disseminated, on a national level and by Autonomous Community. However, due to the aforementioned updating of the questionnaires, we will not provide the information on prices and income broken down by rate and by establishment category, granted that in the current format, information is collected referring to the type of client rather than to the rates applied. Thus, for example, the "weekend" and "normal" rates will disappear, to form a joint "individuals" grouping; conversely, in the 2008 questionnaire, information will be collected on the different types of commercialisation, such as "direct online hiring", which was not previously requested.

Beginning in the year 2009, linked series will be offered on the different establishment categories, once sufficient information is available referring to the whole of the year 2008, allowing us to carry out said links with the utmost quality required.
