Methodological note 2008

Hotel Price Index - Hotel Income Index

As of the year 2000, the INE has published the Hotel Price Index (HPI) and the Hotel Income Index (HII), compiled with the information that hotel businesspersons include in a specific section of the Hotel Occupancy Survey questionnaire.

This part of the questionnaire has not been modified since it was incorporated in said year 2000. Nevertheless, the changes that have taken place in the sector over these past eight years have encouraged the introduction of certain modifications in said section of the questionnaire. With these changes, we hope, on the one hand, **to collect the new distribution channels favoured by generalised Internet use**, and on the other hand, **to adapt the questionnaire to the terms and concepts that are most frequently used within the sector**, as well as the data available in the business management systems themselves.

This improvement will make it possible, **beginning in the year 2009, for the INE to disseminate the whole of the new variables required by the sector, these variables being considered ideal for measuring profitability**: the ADR (Average Daily Rate) and the RevPar (Average income per available room).

Throughout the year 2008, the HPI and the HII will continue to be disseminated, on a national level and by Autonomous Community. However, due to the aforementioned updating of the questionnaires, we will not provide the information on prices and income broken down by rate and by establishment category, granted that in the current format, information is collected referring to the type of client rather than to the rates applied. Thus, for example, the "weekend" and "normal" rates will disappear, to form a joint "individuals" grouping; conversely, in the 2008 questionnaire, information will be collected on the different types of commercialisation, such as "direct online hiring", which was not previously requested.

Beginning in the year 2009, linked series will be offered on the different establishment categories, once sufficient information is available referring to the whole of the year 2008, allowing us to carry out said links with the utmost quality required.
