

20 January 2010

**Hotel Tourism Short-Term Trends (HOS/HPI/HII)**  
**Year 2009. Provisional data**

**Overnight stays at hotel establishments decrease 6.6%\* in 2009 as compared with the previous year**

**Hotel prices decrease an average of 5.6%<sup>1</sup>**

Overnight stays at hotel establishments reached 251.9 million in 2009, with a decrease of 6.6% as compared with the previous year. This rate was 5.4 points lower than that registered in the year 2008.

Overnight stays of residents decreased 3.2% (0.1 points lower than that recorded in 2008), whereas overnights stays of non-residents decreased 9.1%, that is, 9.3 points lower than the rate registered the previous year.

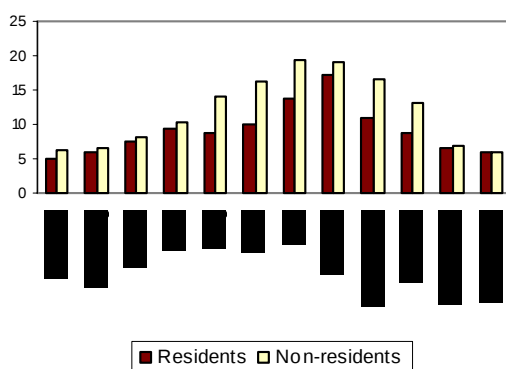

In turn, the Hotel Price Index (HPI) registered a 5.6% average decrease during the year 2009, that is, 6.7 points lower than that observed for the previous year. The Hotel Income Index (HII), which as compared with the HPI, also considers the variation in the tariff structure, decreased 4.4% on average, as compared with the 2.0% from the year 2008.

**48.7% of overnight stays are between June and September**

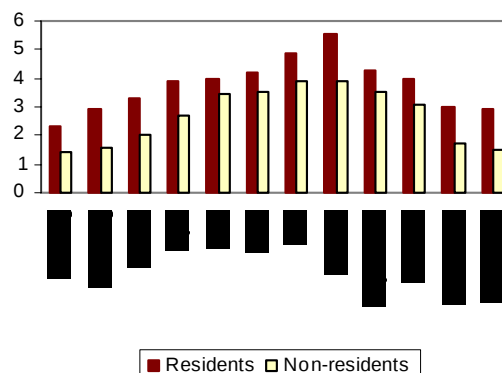

Of the total overnight stays in 2009, 48.7% were accounted for during the months from June to September.

43.6% of the total overnight stays were by resident guests, who represented 58.4% of the total guests.

**Number of overnights stays in the year 2009  
(in millions)**

**Number of guests in the year 2009  
(in millions)**

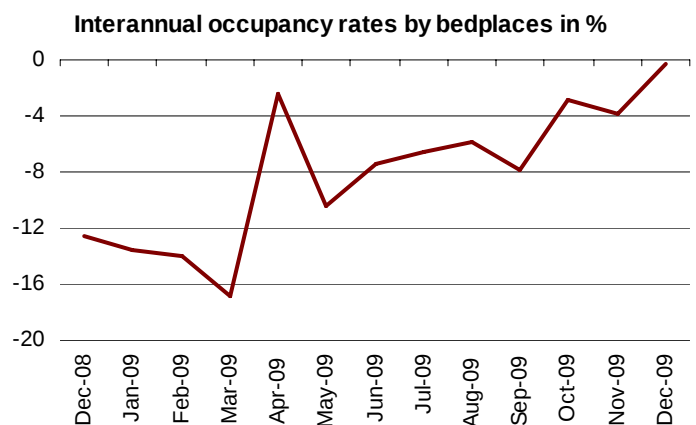

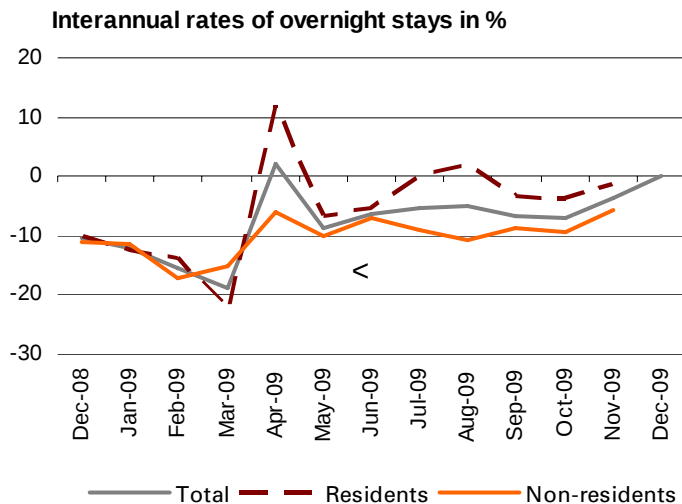

\* Due to the update made in the directory of hotel establishments in Canarias, the data published as of June 2009 (for Canarias and the national total) cannot be directly compared to those published last year. To bridge this gap in the series, link coefficients have been created to allow users to compare data from different years. The coefficients are published monthly on the INE website in the section dedicated to this statistical operation, in a specific section entitled link coefficients.

<sup>1</sup>The average interannual variation rates of the year for the HPI and HII are calculated as the average of the interannual variation rates for the HPI and HII, respectively, weighted by the number of occupied rooms each month.

Interannual variations in overnight stays were only positive in April 2009, remained practically unchanged in December, and in the remaining months showed negative rates.

The interannual variation rate of the occupancy rate by bedplaces was negative for all months of the year.

### The average number of available bedplaces increases 1.3%

Spanish hotels offered an average of 1,362,877 bedplaces during 2009, representing an increase of 1.3% as compared with the year 2008.

**The occupancy rate by bedplaces reached an average of 49.5%**, 7.5% lower than in 2008. The average weekend occupancy rate by bedplaces stood at 54.7%, that is, 5.2 points higher than the total occupancy rate, although it was 5.7% lower than that recorded the previous year.

### Germany is the main country of origin, followed by the United Kingdom

German and British citizens accounted for 28.1% and 26.1%, respectively, of the total overnight stays by foreign nationals in hotels during the year 2009. The German market, consolidated as the main country of origin, registered a decrease of 10.9% in overnight stays, as compared with 2008. In turn, the British market experienced a 11.6% reduction in overnight stays.

France, Italy and the Netherlands, which were the following countries of origin, showed interannual rates of overnight stays of -1.4%, -14.3% and -6.5%, respectively.

By Autonomous Community, Illes Balears, Canarias, Cataluña and Andalucía accounted for 68.6% of the total overnight stays in 2009. Negative interannual variations were registered in all of the Autonomous Communities, except Cantabria and País Vasco.

Andalucía, Comunitat Valenciana, Cataluña, Canarias and Comunidad de Madrid accounted for 65.0% of resident overnight stays in 2009, recording interannual rates of -3.1%, 1.7%, 2.9%, -8.6% and -3.2%, respectively.

Illes Balears, Canarias, Cataluña and Andalucía were the destinations preferred by non-residents, showing interannual rates for the aforementioned overnight stays of -7.3%, -10.9%, -6.1% and -13.5%, respectively.

The **tourist area** that registered the highest number of overnight stays in 2009 was the island of Mallorca, with 36.4 million occupied bedplaces.

The **tourist site** with the highest occupancy rate was Salou, where, on average, 70.8% of the bedplaces available during the year were occupied.

### The Hotel Price Index registers an average decrease of 5.6%

The average growth in hotel prices during 2009 was 5.6%. All of the Autonomous Communities registered decreases in their prices.

On the other hand, income per occupied room decreased an average of 4.4%. This rate was also negative for all of the Autonomous Communities.

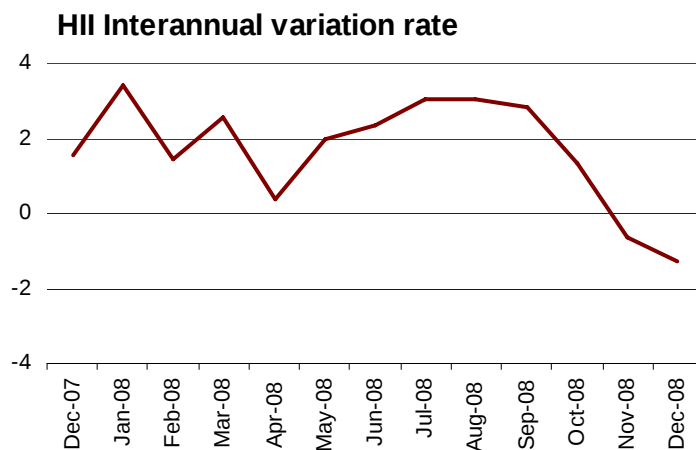

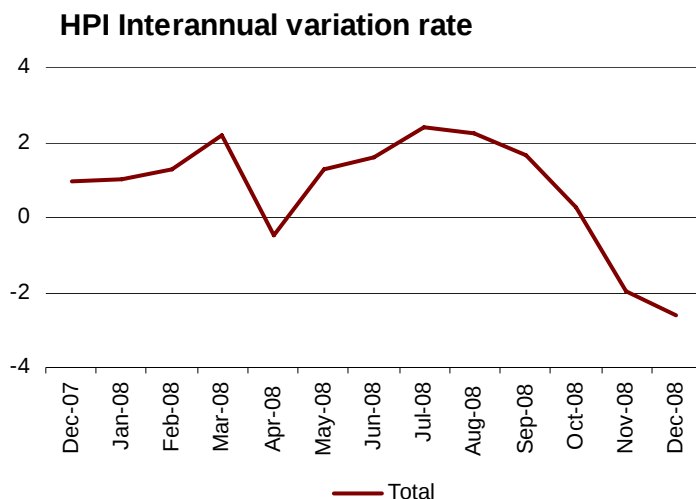

### Interannual variation rates by Autonomous Communities

| Year 2009                    | Weighted average<br>HPI rate | Weighted average<br>HII rate |
|------------------------------|------------------------------|------------------------------|
| <b>TOTAL</b>                 | <b>-5,6</b>                  | <b>-4,4</b>                  |
| Andalucía                    | -4,3                         | -4,0                         |
| Aragón                       | -16,8                        | -11,2                        |
| Asturias (Principado de)     | -3,2                         | -1,5                         |
| Balears (Illes)              | -3,7                         | -3,2                         |
| Canarias                     | -2,7                         | -2,6                         |
| Cantabria                    | -5,1                         | -4,0                         |
| Castilla y León              | -2,1                         | -1,4                         |
| Castilla-La Mancha           | -2,0                         | -1,9                         |
| Cataluña                     | -8,0                         | -6,1                         |
| Comunitat Valenciana         | -6,2                         | -4,3                         |
| Extremadura                  | -2,6                         | -2,6                         |
| Galicia                      | -2,1                         | -0,4                         |
| Madrid (Comunidad de)        | -10,6                        | -9,7                         |
| Murcia (Región de)           | -6,3                         | -4,6                         |
| Navarra (Comunidad Foral de) | -5,5                         | -6,5                         |
| País Vasco                   | -5,7                         | -6,2                         |
| Rioja (La)                   | -5,8                         | -4,4                         |
| Ceuta                        | 1,8                          | -1,5                         |
| Melilla                      | 2,9                          | 4,4                          |

### HPI negative rates all months of the year

The interannual rate of the Hotel Price Index remained between -2.6% (registered in January) and -7.3% (in March) in 2009.

The interannual rates of the Hotel Income Index fluctuated from -5.8% reached in the month of December, to -1.5% registered in January.

### Overnight stays are maintained, and prices decrease 5.2%, in the month of December

During the past month of December, 12.1 million overnight stays were recorded, similar to that registered with the same month the previous year. Overnight stays of residents experienced an interannual drop of 2.6%, while those of non-residents decreased 2.5%.

The average stay decreased 2.1% as compared with December 2008.

In December, 36.4% of the available bedplaces were occupied, 0.3% less than in the same month the previous year. The weekend occupancy rate by bedplaces stood at 39.2%, with an interannual decrease of 4.6%.

Guests from Germany and the United Kingdom amounted to 2.9 million overnight stays in December, accounting for 49.1% of the total for non-residents. Both markets experienced interannual decreases in overnight stays (2.8% and 16.0%, respectively). The following markets of origin were Italy, France and the Netherlands, which presented interannual rates of 17.5%, 9.5% and 11.5%, respectively.

The main destination chosen by non-resident guests was Canarias, with 51.2% of the total overnight stays of non-residents, and a 4.2% decrease as compared with December 2008. In turn, Andalucía, Comunidad de Madrid and Comunitat Valenciana were the main destinations of choice of resident guests, registering interannual rates in December of -9.0%, 18.8% and 3.6%, respectively.

The Hotel Price Index registered an interannual decrease of 5.2% in December, this rate being 1.3 points higher than that registered the previous month, and 2.6 points lower than that registered the previous year. Income per occupied room reflected an interannual decrease of 4.8% for the month of December.

## Methodological note 2009

### Hotel Price Index - Hotel Income Index Base change year 2008

As of the year 2000, the INE publishes the Hotel Price Index (HPI) and the Hotel Income Index (HII), compiled with the information that hotel businesspersons include in a specific section of the Hotel Occupancy Survey questionnaire.

However, the changes that have occurred in the sector in recent years encouraged the introduction of certain modifications in said section of the questionnaire, as of January 2008. With these changes, we hope, on the one hand, **to collect the new distribution channels favoured by generalised Internet use**, and on the other hand, **to adapt the questionnaire to the terms and concepts that are most frequently used within the sector**, as well as the data available in the business management systems themselves.

In order to introduce all of the new information collected in the new questionnaire model in the computation of these indicators in a precise way, it is necessary to carry out a base change. For this reason, as of January 2009, the Hotel Price Index and the Hotel Income Index shall be published in base 2008.

A base change in an indicator implies a break in the historical series, preventing, in this case, the comparison, as of January 2009, with the indices from previous periods. **So as to avoid this break, and maintain temporal comparability, the series published until December 2008 have been linked.**

Available on the INE website, [www.ine.es](http://www.ine.es), are the HPI and HII series in base 2008 as of January 2001 and January 2003, as well as the old series in base 2001 until December 2008.
