

## 1. Identification of the Water Supply and Treatment Unit

### 1.1 Modifications of the identification particulars (Complete only those sections subject to variation)

#### 1.1.1 The local entity / The management entity Community

Name or corporate name of the company

NIF

Address

Postcode

Municipality

Province

Telephone

Fax

E-mail

#### 1.1.2 The water supply and treatment unit of the Autonomous

Name

Address

Autonomous Community

Municipality

Postcode

Province

Telephone

Fax

E-mail

Details of the person to be contacted, if necessary, for clarifications or questions regarding this questionnaire.

Mr. /Ms. :

Post held:

Telephone:

Fax:

E-mail:

SIGNATURE OR SEAL OF THE  
MANAGEMENT COMPANY

### Nature, characteristics and purpose

This survey is included within statistical operation no. 6071 "Statistics on water use" of National Statistical Plan 2013-2016. The objectives of this survey are update and enlarge the information about water supply and treatment of wastewater.

#### Legislation

##### Statistical secrecy

The personal information obtained by the statistical services, both directly from the informants and from administrative sources, shall be subject to protection, and covered by statistical secrecy (article 13.1 of the Law on Public Statistical Services, of 9 May 1989, (LFEP)). All statistical personnel will be obliged to maintain statistical secrecy (article 17.1 of the LFEP).

##### Obligation to provide data

Laws 4/1990 and 13/1996 establish the obligation to provide the data that is requested for the compilation of these Statistics.

The statistical services may request data from all individuals and corporations, whether national or foreign, resident in Spain (article 10.1 of the LFEP).

All individuals and corporations providing data, regardless of whether their collaboration is compulsory or voluntary, must respond in a true, exact and comprehensive manner within the stipulated deadline to the questions outlined in due form by the statistical services (article 10.2 of the LFEP).

Failure to comply with the obligations established in this Law, as regards statistics for state purposes, shall be sanctioned, pursuant to the regulations contained in this Title (article 48.1 of the LFEP).

Very serious infringements shall be sanctioned with fines ranging from 3,005.07 to 30,050.61 euros. Serious infringements shall be sanctioned with fines ranging from 300.52 to 3,005.06 euros. Minor infringements shall be sanctioned with fines ranging from 60.10 to 300.51 euros (articles 51.1, 51.2 and 51.3 of the LFEP).

Note: This questionnaire is available in the different co-official languages of Autonomous Communities.

#### Statistics of compulsory compliance

## General instructions:

Read carefully the Instructions for the compliance of the questionnaire of the Survey on Water Supply and Treatment 2012. Information unit: the information requested in this questionnaire refers to the Water Supply and Treatment Unit whose identification data appears on the cover page. Complete the questionnaire with the data related to any supply, sewage and wastewater treatment activities carried out by this entity in the Autonomous Community that appears on the label. A questionnaire cannot contain data related to more than one Autonomous Community.

Reference period: the data must refer to the year 2012.

Form of recording the data: write down the data clearly. The volume of water is measured in cubic metres / year.

The financial data is requested in euros and shall not include invoiced VAT.

Consignment term: this questionnaire, duly completed with the required information, must be returned within a term not exceeding 15 calendar days.

## 1.2. Legal status of the Supply and Treatment Unit

Mark with an X where appropriate

- |  |                          |
|--|--------------------------|
| 1. Local Entity (City councils, Communities, etc.) ..... | <input type="checkbox"/> |
| 2. State-owned company (100%) .....                      | <input type="checkbox"/> |
| 3. Mixed company .....                                   | <input type="checkbox"/> |
| 4. Private-owned company (100%) .....                    | <input type="checkbox"/> |
| 5. Other legal status (specify): .....                   | <input type="checkbox"/> |

## 1.3. Activities of the Supply and Treatment Unit

Mark with an X where appropriate. If you do not distribute water on low-level to users move to section 6.

- |  |  |
|--|--|
| 1. The Unit in the Autonomous Community: | <input type="checkbox"/> Distributes water on high-level         |
|  | <input type="checkbox"/> Distributes water on low-level to users |
|  | <input type="checkbox"/> Manages the sewage system               |
|  | <input type="checkbox"/> Treats wastewater                       |

## 2. Collection and purchase of raw water from other entities

Collection includes both the granted water and the one obtained from owned resources.

The volume of water is measured in m<sup>3</sup>

	Collection	Purchase
1. Volume of raw water collected or purchased (m <sup>3</sup> /year) .....	_____	_____
1.1. Surface water .....	_____	_____
1.2. Groundwater (includes springs) .....	_____	_____
1.3. Water for desalinisation .....	_____	_____
2. Volume of raw water sold in high-level to other entities (m <sup>3</sup> /year) .....	_____	_____

## 3. Purchase of treated water from other entities

- |  |       |
|--|-------|
| 1. Volume of treated water purchased from other entities (m <sup>3</sup> /year) .....        | _____ |
| 2. Volume of treated water sold in high-level to other entities (m <sup>3</sup> /year) ..... | _____ |

## 4. Losses in piping and consumption in treatment

Losses in piping are the difference between the volume collected or purchased from other entities and the volume entering the Drinking Water Treatment Plants (DWTP).

The water consumed in treatment is the differences between the volume of water entering the DWTP and the volume leaving it.

- |   |       |
|---|-------|
| 1. Losses in piping (in high-level) (m <sup>3</sup> /year) .....      | _____ |
| 2. Volume of water consumed in treatment (m <sup>3</sup> /year) ..... | _____ |

## 5. Distribution of treated water on low-level to users (m<sup>3</sup>/year)

Section 1 will include water supplied to the distribution network from treatment plants or service deposits.

The rubric 1.1 will include the total volume of water measured by the meters of the users.

Indicate in rubric 1.2 the difference between the volume of water supplied to the public supply network (section 1) and the volume of water registered and distributed by type of user (section 1.1).

The investment made shall refer only to that carried out during the year 2012. The volume of water is measured in m<sup>3</sup>.

1. Volume of water supplied to the public supply network (m <sup>3</sup> /year).....	_____
1.1 Volume of water registered and distributed by type of user .....	_____
1.1.1 Households (including second homes).....	_____
1.1.2 Industry .....	_____
1.1.3 Services (trade, offices...).....	_____
1.1.4 Agriculture and cattle raising .....	_____
1.1.5 Leisure and tourism uses (hotels, campsites, swimming pools, golf courses...).....	_____
1.1.6 Municipal consumption (garden watering, street and municipal building cleaning...) .....	_____
1.1.7 Building and public works.....	_____
1.1.8 Other user (specify): .....	_____
1.2 Non registered volume of water .....	_____
1.2.1 Real losses (water leaks, breakages, deposit overflows) .....	_____
1.2.2 Apparent losses.....	_____
1.2.2.1 Meter inaccuracies (undercounting) .....	_____
1.2.2.2 Authorised non measured uses (street cleaning, public park watering, fountains, filter cleaning, deposit cleaning, etc.) .....	_____
1.2.2.3 Non authorised uses (fraud) .....	_____
2. Length of the supply network (km) .....	_____
3. Value of the investment made on the distribution network (euros) .....	_____
4. Supplied population (inhabitants) (*) .....	_____

## 6. Total value of the water invoiced to users (euros)

This refers to both the invoicing itself and the monetary amounts charged to users by delegation of invoicing.

The monetary amount shall contain all rubrics related to the correspondent service, including any kind of tax.

It shall not include invoiced VAT.

1. Water supply	
1.1 Invoiced value of the water supply service.....	_____
2. Sewage	
2.1 Invoiced value of the sewage service .....	_____
3. Wastewater treatment	
3.1. Invoiced value of the wastewater treatment service .....	_____

## 7. Sewage

1. Length of the sewage network (km) .....	_____
2. Number of spillways of the sewage network .....	_____
3. Stormtanks	
3.1 Number of stormtanks.....	_____
3.2 Total capacity (m <sup>3</sup> ) .....	_____

(\*) Number of people-year (or failing that at 1st January 2012) that live in dwellings supplied by the company or organisation. For municipalities registering sharp seasonal variations, refer the annual average.

## 8. Treatment of wastewater (m<sup>3</sup>/year)

Wastewater treatment consists on treating wastewater so that it can be poured into the channels or collectors. BOD<sub>5</sub> before treatment is measured in mg/litre, it is calculated by balancing with the current treated flows and it refers to the annual average.

1. Number of Wastewater Treatment Plants (WWTP).....	<input type="text"/>															
2. Number of Soft Technologies Based Plants .....	<input type="text"/>															
3. Capacity of the plants.....	<table border="1"> <thead> <tr> <th>m<sup>3</sup>/year</th> <th>Equivalent inhabitants</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td></td> <td></td> </tr> </tbody> </table>	m <sup>3</sup> /year	Equivalent inhabitants													
m <sup>3</sup> /year	Equivalent inhabitants															
3.1 Primary treatment (physical-chemical)																
3.2. Primary and secondary treatment (physical-chemical and biological)																
3.3 Primary, secondary and tertiary treatment (physical-chemical + biological + advanced)																
4. Treated volume .....	<table border="1"> <thead> <tr> <th>m<sup>3</sup>/year</th> <th>Inhabitants Equivalent</th> <th>BOD<sub>5</sub> Before Treatment</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> </tr> </tbody> </table>	m <sup>3</sup> /year	Inhabitants Equivalent	BOD <sub>5</sub> Before Treatment												
m <sup>3</sup> /year	Inhabitants Equivalent	BOD <sub>5</sub> Before Treatment														
4.1 Primary treatment (physical-chemical)																
4.2. Primary and secondary treatment (physical-chemical and biological)																
4.3 Primary, secondary and tertiary treatment (physical-chemical + biological + advanced)																
4.4 Soft Technologies Based Plants (biodiscs, lagooning, peat layers, septic tanks, etc.)																
5. Destination of the treated wastewater (100% total)																
5.1 To the sea .....	<input type="text"/> %															
5.2 To a river channel.....	<input type="text"/> %															
5.3 Re-used water .....	<input type="text"/> %															
5.4 Other destination (specify) .....	<input type="text"/> %															
TOTAL .....	<input type="text" value="100%"/>															
6. Volume of re-used treated wastewater (m <sup>3</sup> /year) .....	<input type="text"/>															
7. Use of the re-used water (100% total)																
7.1 Agriculture.....	<input type="text"/> %															
7.2 Industry.....	<input type="text"/> %															
7.3 Gardens and leisure and sport areas.....	<input type="text"/> %															
7.4 Sewage and street cleaning .....	<input type="text"/> %															
7.5 Other uses (specify) .....	<input type="text"/> %															
TOTAL .....	<input type="text" value="100%"/>															
8. Volume of sludges generated in wastewater treatment (tonnes of dry matter/year) .....	<input type="text"/>															
9. Destination of the generated sludges (100% total)																
10.1 Agriculture, forestry and gardening .....	<input type="text"/> %															
10.2 Incineration or energy use.....	<input type="text"/> %															
10.3 Dumping site .....	<input type="text"/> %															
TOTAL .....	<input type="text" value="100%"/>															

For the purpose of updating the listing of municipalities and population coverage dealt with by this company or entity in the Autonomous Community corresponding to this questionnaire, please refer to the listing of all the municipalities serviced, placing an "x" next to the services that have been provided in each one of them during the year 2012, making a distinction between low-level water distribution, sewage and wastewater treatment, and indicating the percentage of population serviced among the municipality.

Do not write in the shaded areas, served for the National Statistics Institute.
