

The 2014/2015 European Peer Reviews – facilitating for statistical cooperation in the Nordic countries

Session 6

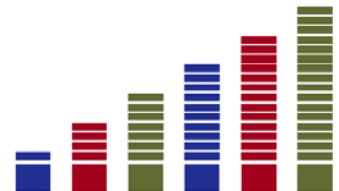

Naja Andersen, Statistics Denmark

Ari Tyrkkö, Statistics Finland

Live Margrethe Rognerud, Statistics Norway

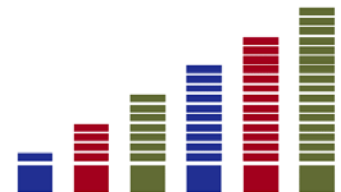

Issues raised

1. Formalising the NSS, including the definition of 'Official statistics'
 - a need for clarification
 - coordination of NSS
2. Ensuring quality management across the NSS
 - challenges for the NSIs
 - political support?
3. Formalising cooperation with administrative data providers
 - Benefits for owner and users?
 - Cross-boarder benefits?

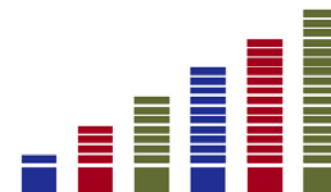

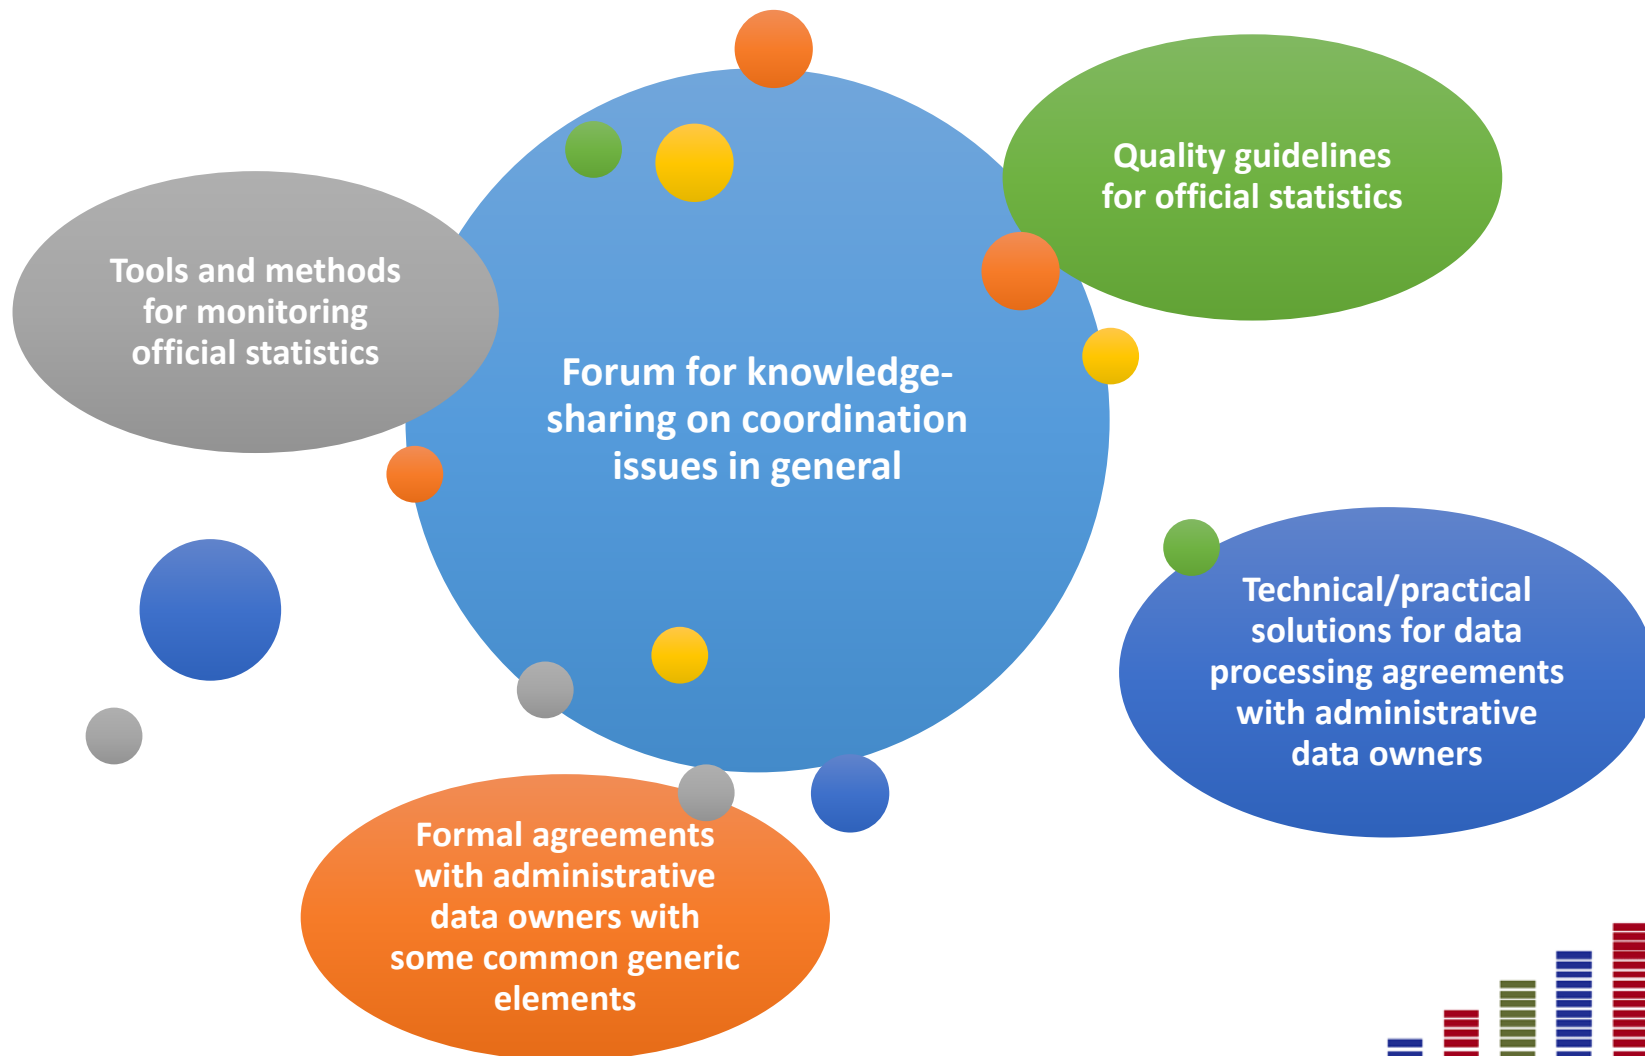

Conclusions

- The 2014/2015 Peer Review revealed similar challenges but the countries are at various stages in addressing these
- Some key questions
 - A better definition of ‘Official Statistics’?
 - Quality management in NSS?
 - Ensure high quality input from registers?

Suggestion for future work

Thank you for the attention!
